

Procurement of Consultancy Services for Design, Configuration and Deployment of a Web-Based Project Monitoring and Performance Dashboard for SMEDA Business Plan

Ref#: P78547 | Velosi Proposal No: VAIL-26-614

Velosi Pre-Bid Clarification No. 1

Dated: 20th August 2026

Sr. No.	Reference	Velosi's Queries	SMEDA Reply
1	Section 3.1 > Business Plan review and Framework Design	Kindly confirm the number of third-party software to be integrated with Velosi-ERP® Project Management Module.	There will be no third-part software integrations required, as per the Scope of the Work.
2	Section 3.7 > Testing, Validation & Deployment	Velosi-ERP® is a web-based software which can be deployed at Client's site (as an on-premise solution) or on Cloud. Kindly confirm that the required hardware and software pre-requisites (arrangement of server and Hardware infrastructure) for on-premise deployment would be arranged by SMEDA. For Cloud based deployment, kindly confirm if the Cloud hosting would be arranged by SMEDA.	SMEDA will host the solution on its own existing server or arrange suitable hosting, in compliance with government policy requiring data to reside on a local server within Pakistan. The proposed technology/platform shall be open-source based. Development and testing phases shall be performed on the bidder's/service provider's server, while the final product shall be hosted on SMEDA's server. The Consultant is required to assess and recommend an appropriate platform/deployment approach based on SMEDA's operational requirements, cost-effectiveness, scalability and long-term sustainability.
3	Section 3 > Scope of Work	With reference to Point No. 01 under Section 3.7 "Populate the system with historical and baseline data from the Business Plan to validate all calculations, visualizations, and alert mechanisms". Kindly confirm that the Data will be shared by client in Velosi's provided Software templates and Velosi shall only be responsible to upload the templates into the system. Data collection, Cleansing and filling the data in Velosi-ERP® Software Templates is not part of Velosi's scope.	SMEDA will provide the requisite information, in excel based data sheets and partially data from in-house open-source dash-board. The Consultant shall be responsible for configuring the data structure, mapping and uploading/populating the provided data into the system and undertaking the necessary technical validation to ensure that calculations, visualizations and alerts function correctly.
