

Response to Pre-Proposal Clarification No 05 from Proposer M/s Ghulam Rasool & Company on RFP/EPC Bidding Document of Package-III: Electro-Mechanical Works of ALHPP

Sr. No.	Clarification from Proposer	Reply by AHMC
1.	The Potential Proposer M/s GRC respectfully submit that the recent changes/amendments in RFP/EPC Bidding Document have necessitated further review and corresponding updates to our Technical and Financial Proposals. This has also required fresh confirmations from E&M Equipment Manufacturers, Suppliers, and Specialist Sub-Contractors regarding technical particulars, delivery schedules, quotations, and price validity. The required confirmations and commercial inputs are taking additional time due to ongoing technical and commercial coordination with the concerned parties, while prevailing market and logistics conditions are also affecting the finalization of prices and delivery commitments. In view of the above, we respectfully request the Employer to grant a further extension of one (01) month to the Proposal submission deadline. The requested extension will enable the Proposer to incorporate the updated requirements and submit a complete, competitive, and fully responsive Proposal.	Noted. It is hereby clarified that the request for extension in Proposal submission deadline has been under consideration to facilitate Prospective Proposers. This request is being reviewed after due consideration of the prevailing circumstances, including the need for Proposers to coordinate with E&M Equipment Manufacturers and Suppliers, prepare technically responsive and commercially competitive Proposals. The extended Proposal submission date will be communicated through upcoming Addendum to RFP/EPC Bidding Document which will be uploaded on EPADS v2.0 in due course of time.
