The FBISE, now requires an independent, objective, evidence-based third-party audit to validate the effectiveness, integrity, and compliance of these systems with FBISE's own SOPs, policies, regulations, and statutory requirements, and to benchmark FBISE's practices against recognized national and international examination bodies.

Section VII. Conditions of Contract and Contract Forms

Foreword

1. **Time-Based Contract.** This type of contract is appropriate when it is difficult to define or fix the scope and the duration of the services, either because they are related to activities carried out by others for which the completion period may vary, or because the input of the consultants required for attaining the objectives of the assignment is difficult to assess. In time-based contracts the Consultant provides services on a timed basis according to quality specifications, and Consultant's remuneration is determined on the basis of the time actually spent by the Consultant in carrying out the Services and is based on (i) agreed upon unit rates for the Consultant's experts multiplied by the actual time spent by the experts in executing the assignment, and (ii) reimbursable expenses using actual expenses and/or agreed unit prices. This type of contract requires the Procuring Agency to closely supervise the Consultant and to be involved in the daily execution of the assignment.
2. The templates are designed for use in assignments with consulting firms and shall not be used for contracting of individual experts. These standard Contract forms are to be used for complex and/or large value assignments.
