The Bidder shall certify that the price is determined keeping in view of all the essential aspects such as raw material, its processing, value addition, optimization of resources due to economy of scale, transportation, insurance and margin of profit etc.

32.7 An affirmative determination will be a prerequisite for award of the contract to the Bidder. A negative determination will result in rejection of the Bidder's Bids, in which event the Procuring Agency will proceed to the next ranked Bidder to make a similar determination of that Bidder's capabilities to perform

satisfactorily.

CHAPTER NO.1

1.1 INTRODUCTION

The blacklisting is one of the considered instruments which are used in the struggle against the corruption in connection with the public procurement. APPENDIX-1

PROCESS TO DEAL WITH COMPLAINTS

It has been frequently observed that after opening of tenders, the bidders start to influence the evaluation process. Such mis-leading attempts result in delay in finalizing of award of contract and cause financial loss to the National organization and stain its sanctity. The evaluation process is confidential till publication of award of contract process.

Provision of guidelines of international donor agencies and PPRA provides sufficient opportunity to bidders for redressal of their grievances. Hence, the attempts made by the bidders during evaluation process to influence the contract award decisions fall under the definition of corrupt and fraudulent practices. Therefore, during bidding stage, the following mechanism shall be adopted in case of receipt of any complaint from the bidder.

- i. Anonymous complaints shall not be entertained.
- ii. The notice of displeasure and explanation will be immediately sent to those firms who lodge the complaint during the evaluation process.
- iii. If the firm does not refrain from making complaints in the same tender, the official warning will be sent and their case will be sent to "NTDC's Rights Protection Committee" which may analyse the situation and suggest action including the rejection of the bid of the complainant. However, Project Authority with prior approval of MD (NTDC) may reject the bid even in first instance depending upon nature of the case or provision of the Bidding Documents.
- iv. If the same bidder itself or through its agent or any third party lodges complaint in another tender floating in parallel before decision of the committee, its bid will straight forwardly be rejected by the project authority. It may also be debarred to participate in the next tender for six months under intimation to the Committee and MD NTDC.
- v. If the same bidder itself or through its agent or any third party lodges complaint third time in the same or any other tender within a period of one year, its bid will be rejected and bid security will be forfeited by the project authority. It may also be debarred to participate in the next tender for one year under intimation to the Committee and MD NTDC.
- vi. In order to monitor the record of the bidders, a data base will be maintained at NTDC's website and the offices of the project authorities regarding firms/suppliers/contractors who consistently lodge complaints during the evaluation process by making clandestine access to confidential record and hamper the award of contract process.

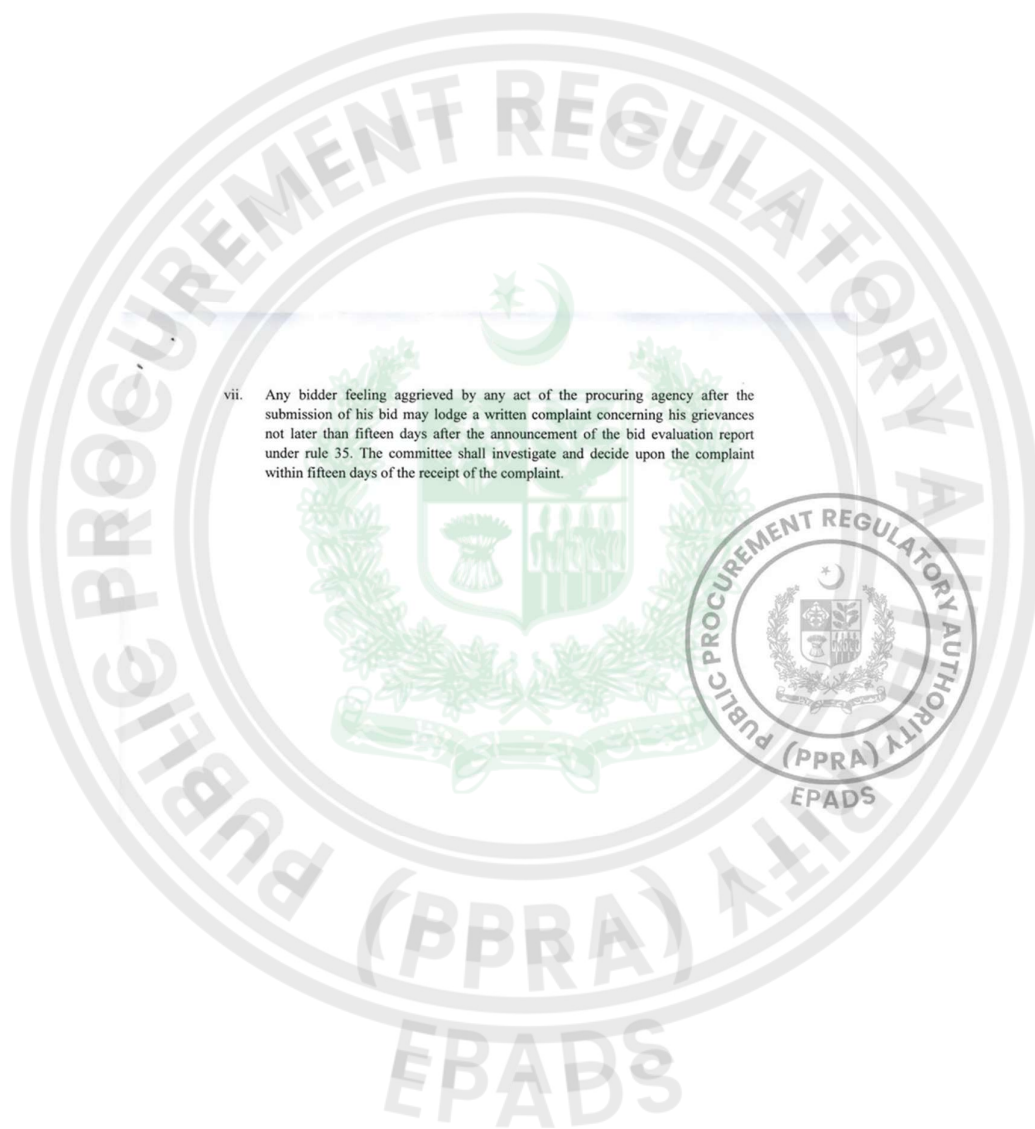

Page 9 of 11

- vii. Any bidder feeling aggrieved by any act of the procuring agency after the submission of his bid may lodge a written complaint concerning his grievances not later than fifteen days after the announcement of the bid evaluation report under rule 35. The committee shall investigate and decide upon the complaint within fifteen days of the receipt of the complaint.

APPENDIX-1

PROCESS TO DEAL WITH COMPLAINTS

It has been frequently observed that after opening of tenders, the bidders start to influence the evaluation process. Such mis-leading attempts result in delay in finalizing of award of contract and cause financial loss to the National organization and stain its sanctity. The evaluation process is confidential till publication of award of contract process.

Provision of guidelines of international donor agencies and PPRA provides sufficient opportunity to bidders for redressal of their grievances. Hence, the attempts made by the bidders during evaluation process to influence the contract award decisions fall under the definition of corrupt and fraudulent practices. Therefore, during bidding stage, the following mechanism shall be adopted in case of receipt of any complaint from the bidder.

- i. Anonymous complaints shall not be entertained.
- ii. The notice of displeasure and explanation will be immediately sent to those firms who lodge the complaint during the evaluation process.
- iii. If the firm does not refrain from making complaints in the same tender, the official warning will be sent and their case will be sent to "NTDC's Rights Protection Committee" which may analyse the situation and suggest action including the rejection of the bid of the complainant. However, Project Authority with prior approval of MD (NTDC) may reject the bid even in first instance depending upon nature of the case or provision of the Bidding Documents.
- iv. If the same bidder itself or through its agent or any third party lodges complaint in another tender floating in parallel before decision of the committee, its bid will straight forwardly be rejected by the project authority. It may also be debarred to participate in the next tender for six months under intimation to the Committee and MD NTDC.
- v. If the same bidder itself or through its agent or any third party lodges complaint third time in the same or any other tender within a period of one year, its bid will be rejected and bid security will be forfeited by the project authority. It may also be debarred to participate in the next tender for one year under intimation to the Committee and MD NTDC.
- vi.
