Instructions to Bidders

A. Introduction

1.Scope of Bids

1.1 The Procuring Agency (PA), as indicated in the **Bids Data Sheet (BDS)** invites Bids **through EPADS v2.0** for the provision of Goods for as specified in the BDS and **in Section V - Evaluation Criteria, Specifications & Schedule of Requirements**. The name, identification, and number of items/deliverables are provided in the **BDS**. The successful Bidders will be expected to provide the goods within the specified period and timeline(s) as stated in the **BDS**.

2. Source of Funds

2.1 Source of funds is referred in Clause-1 of Invitation for Bids.

3. Eligible Bidders

3.1 A Bidder may be natural person, company or firm or public or semi-public agency of Pakistan or any foreign country, or any combination of them with a formal existing agreement (on Judicial Papers) in the form of a joint venture, consortium, or association. In the case of a joint venture, consortium, or association, all members shall be jointly and severally liable for the execution of the Contract in accordance with the terms and conditions of the Contract. The joint venture, consortium, or association shall nominate a Lead Member as nominated in the BDS, who shall have the authority to conduct all business for and on behalf of any and all the members of the joint venture, consortium, or association during the Bidding process, and in case of award of contract, during the execution of the contract.

3.2 Verifiable copy of the agreement that forms a joint venture, consortium or association shall be required to be submitted as part of the Bid.

3.3 The appointment of Lead Member in the joint venture, consortium, or association shall be confirmed by submission of a valid Power of Attorney to the Procuring Agency.

3.4 Any bid submitted by the joint venture, consortium or association shall indicate the part of proposed contract to be performed by each party and each party shall be evaluated (or post qualified if required) with respect to its contribution only, and the responsibilities of each party shall not be substantially altered without prior written approval of the Procuring Agency and in line with

any instructions issued by the Authority.

(The limit on the number of members of JV or Consortium or Association may be prescribed in BDS, in accordance with the guidelines issued by the PPRA).

3.5 The invitation for Bids is open to all prospective suppliers, manufacturers, or authorized agents / dealers subject to any provisions of incorporation or licensing by the respective national incorporating agency or statutory body established for that particular trade or business. Procuring agencies shall specify the registration/licensing requirements for the foreign bidders keeping in view the requirement of that business.

3.6 A Bidder shall not have a conflict of interest. All Bidders found to have a conflict of interest shall be disqualified. A Bidder may be considered to have a conflict of interest with one or more parties in this Bidding process, if they:

1. are associated or have been associated in the past, directly or indirectly with a firm or any of its affiliates which have been engaged by the Procuring Agency to provide consulting services for the preparation of the design, specifications and other documents to be used for the procurement of the Goods to be purchased under this Invitation for Bids.
2. have controlling shareholders in common; or
3. receive or have received any direct or indirect subsidy from any of them; or
4. have the same legal representative for purposes of this Bid; or
5. have a relationship with each other, directly or through common third parties, that puts them in a position to have access to information about or influence on the Bids of another Bidder, or influence the decisions of the Procuring Agency regarding this Bidding process; or
6. Submit more than one Bid in this Bidding process.

3.7 A Bidder may be ineligible if –

1. he is declared bankrupt or, in the case of company or firm, insolvent;
2. payments in favor of the Bidder is suspended in accordance with the judgment of a court of law other than a judgment declaring bankruptcy and resulting (in accordance with the national laws) in the total or partial loss of the right to administer and dispose of its property;

3. the Bidder is convicted, by a final judgment, of any offence involving professional conduct;

4. the Bidder is blacklisted locally or by international organizations and hence debarred due to involvement in corrupt and fraudulent practices, or performance failure or due to breach of Bid securing declaration.

3.8 As and when required, bidders shall provide to the Procuring Agency evidence of their eligibility, proof of compliance with the necessary legal requirements to carry out the contract effectively.

3.9 Bidders shall submit Bids relating to the nature, conditions and modalities of sub-contracting wherever the sub-contracting of any elements of the contract amounting to more than ten (10) percent of the Bid price is envisaged.

4. Eligible Goods and Related Services

4.1 All goods and related services to be supplied under the contract shall have their origin in eligible source countries, and all expenditures made under the contract will be limited to such goods and services. For purpose of this Bid, ineligible countries are the countries declared ineligible by the Federal Government.

5. One Bid per Bidder

5.1 A bidder shall submit only one Bid, in the same bidding process, either individually as a Bidder or as a member in a joint venture or any similar arrangement.

5.2 The Bidder shall not engage a subcontractor for any portion of the contract if the value of such subcontracting exceeds thirty percent (30%) of the total contract amount.

6. Cost of Bidding

6.1 Any cost incurred by the bidder relating to the preparation and submission of its Bid shall be borne by the bidder, and the Procuring Agency shall in no case be responsible or liable for those costs, regardless of the conduct or outcome of the bidding process.

B. Bidding Documents

7. Contents of Bidding Document

7.1 The Goods required, Bidding procedures, and terms and conditions of the contract are prescribed in the Bidding Documents. In addition to the Invitation for Bids, the Bidding documents which should be read in conjunction with any addenda issued in accordance with **ITB 9.1** include:

Section I -Invitation to Bids

Section II Instructions to Bidders (ITB)

Section III Bid Data Sheet (BDS)

Section IV Evaluation Criteria, Specifications, Schedule of Requirements

Section V Bid Forms

Section VI General Conditions of Contract (GCC)

Section VII Special Conditions of Contract (SCC)

Section VIII Contract Forms

7.2 The Bidder is expected to examine all instructions, forms, terms and specifications in the Bidding documents. Failure to furnish all the information required in the Bidding documents through **EPADS v2.0** will be at the Bidder's risk and may result in the rejection of his Bids.

8. Clarification of Bidding documents

8.1 A prospective Bidder requiring any clarification of the Bidding documents may notify the Procuring Agency through **EPADS v2.0**.

8.2 The Procuring Agency will within three (3) working days after receiving the request for clarification, respond to any request for clarification through **EPADS v2.0** provided that such request is received not later than three (03) days prior to the deadline for the submission of Bids as prescribed in **ITB 22**

8.3 Copies of the Procuring Agency's response will be forwarded to all identified Prospective Bidders through **EPADS v2.0**, including a description of the inquiry, but without identifying its source.

8.4 Should the Procuring Agency deem it necessary to amend the Bidding document as a result of a clarification, it shall do so following the procedure under **ITB 9**.

8.5 If indicated **in the BDS**, the Bidder's designated representative is invited at the Bidder's cost to attend a pre-Bid meeting at the place, date and time mentioned **in the BDS**. During this pre-Bid meeting, prospective Bidders may request clarification of the schedule of requirement, the Evaluation Criteria or any other aspects of the Bidding document.

8.6 Minutes of the pre-Bid meeting, if applicable, including the text of the questions asked by Bidders, including those during the meeting (without identifying the source) and the responses given, together with any responses prepared after the meeting will be uploaded on **EPADS v2.0**. Any modification to the Bidding documents that may become necessary as a result of the pre-Bid meeting shall be made by the Procuring Agency exclusively through the use of an Addendum pursuant to **ITB 9**. Non-attendance at the pre-Bid meeting will not be a cause for disqualification of a Bidder.

9. Amendment of Bidding documents

9.1 Before the deadline for submission of Bids, the Procuring Agency for any reason, whether at its own initiative or in response to a clarification requested by a prospective Bidder or Pre-Bid meeting may modify the Bidding documents by issuing addenda through **EPADS v2.0**.

9.2 The Procuring Agency shall promptly publish the addendum through **EPADS v2.0**.

9.3 Any addendum issued including the notice of any extension of the deadline shall also be communicated through EPADS v2.0 to all the bidders who have already submitted their bids. Such bidders shall have the right to withdraw their already submitted bid and re-submit the revised bid prior to the original or extended bid submission deadline.

9.4 To give prospective Bidders reasonable time in which to take an addendum/corrigendum into account in preparing their Bids, the Procuring Agency may, at its discretion, extend the deadline for the submission of Bids through **EPADS v2.0**:

Provided that the Procuring Agency shall extend the deadline for submission of Bids, if such an addendum is issued within last three (03) days of the Bids submission deadline.

C. Preparation of Bids

10. Language of Bid

10.1 The Bid prepared by the bidder, as well as all correspondence and documents relating to the Bids exchanged by the Bidder and the Procuring Agency shall be written in the English language unless otherwise specified in the BDS. Supporting documents and printed literature furnished by the Bidder may be in another language provided they are accompanied by an accurate translation of the relevant pages in the English language unless otherwise specified in the **BDS**, in which case, for purposes of interpretation of the Bidder, the translation shall govern.

11. Documents and samples Constituting the Bid

11.1 The Bid prepared by the Bidder shall constitute the documents required in the **BDS**.

Details of sample(s) where applicable and requested in the BDS.

1. Documentary evidence established in accordance with ITB that the Bidder is eligible and/or qualified for the subject bidding process;
2. Documentary evidence establish that the Bidder has been authorized by the manufacturer to deliver the goods into Pakistan, where required and where the supplier is not the manufacturer of those goods;
3. Documentary evidence establish that the goods and related services to be supplied by the Bidder are eligible goods and services, and conform to the Bidding Documents;
4. Bid security or Bid Securing Declaration furnished in accordance with **ITB 18**.

12. Documents Establishing Eligibility of the Goods and Conformity to Bidding documents

12.1 To establish the conformity of the bidder to the Bidding document, the Bidder shall furnish as part of its Bids the documentary evidence that Goods provided conform to the technical specifications and standards.

13. Documents Establishing Eligibility and Qualification of the Bidder

13.1 The Bidder shall furnish, as part of its Bid, all those documents establishing the Bidder's eligibility to participate in the Bidding process and/or its qualification to perform the contract if its Bid is accepted.

14. Form of Bids

14.1 The Bidder shall fill the Form of Bid furnished in the Bidding documents. The Bids Form must be completed without any alterations to its format and no substitute shall be accepted.

15. Bids Prices

15.1 The Bids Prices quoted by the Bidder in the Form of Bid and in the Price Schedules shall conform to the requirements specified below or exclusively mentioned hereafter in the Bidding documents.

15.2 All items in the Schedule of Requirement must be listed and priced separately in the Price Schedule(s). If a Price Schedule shows items listed but not priced and neither explicitly denied, their prices shall be construed to be included in the prices of other items.

15.3 Items not listed in the Price Schedule shall be assumed not to be included in the Bid, and provided that the Bid is still substantially responsive in their absence or due to their nominal nature, the corresponding average price of the respective item(s) of the remaining substantially responsive Bidder(s) shall be construed to be the price of those missing item(s)

15.4 The Bid price to be quoted in the Form of Bid in accordance with **ITB 14.1** shall be the total price of the Bid.

15.5 The Bidder shall indicate on the appropriate Price Schedule, the unit prices (where applicable) and total Bid price of the Goods it proposes to provide under the contract.

15.6 Prices quoted by the Bidder shall be fixed during the Bidder's performance of the contract and not subject to variation on any account. A Bid submitted with an adjustable price will be treated as non-responsive and shall be rejected.

16. Bids Currencies

16.1 Prices shall be quoted in Pakistani Rupees unless otherwise specified in the BDS in accordance with Rule 30(2) of the Public Procurement Rules, 2004.

17. Bids Validity Period

17.1 Bids shall remain valid for the period specified in the **BDS** after the Bid submission deadline prescribed by the Procuring Agency. A Bid valid for a shorter period shall be rejected by the Procuring Agency as non-responsive. The period of Bid validity will be determined from the complementary Bid securing instrument, i.e. the expiry period of Bid Security or Bids Securing Declaration as the case may be.

17.2 The procuring agency shall ordinarily be under an obligation to process and evaluate the bid and to issue letter of award within the stipulated bid validity period.

17.3 Under exceptional circumstances, prior to the expiration of the initial Bid validity period, the Procuring Agency may request the Bidders' consent to an extension of the period of validity of their Bids only once through **EPADS v2.0**, for the period not more than the period of initial bid validity. The Bid Security provided under **ITB 18** shall also be suitably extended. A Bidder may refuse the request without forfeiting its Bid security or causing to be executed its Bid Securing Declaration. A Bidder agreeing to the request will not be required nor permitted to modify its Bid, but will be required to extend the validity of its Bid Security or Bid Securing Declaration for the period of the extension.

18. Bid Security or Bid Securing Declaration

18.1 The Bidder shall furnish as part of its Bid, a Bid Security in accordance with Rule 25 of the Public Procurement Rules, 2004.

18.2 The original Bid Security shall be enclosed within the sealed envelope and to be submitted physically before closing time for submission of bids. Whereas, scanned copy of bid security shall be uploaded electronically through EPADS v2.0 before closing hours for submission of bids.

18.3 The Bidder who failed to submit the original Bids security before the submission deadline shall be disqualified straightaway.

18.4 The Bid Security or Bid Securing Declaration is required to protect the Procuring Agency against the risk of Bidder's conduct which would warrant the security's forfeiture, pursuant to **ITB 18.7**.

18.5 The Bid Security shall be denominated in the local currency, and it shall be a Bank Draft in the name of the Procuring Agency and valid for twenty-eight (28) days beyond the end of the validity of the Bid. This shall also apply if the period

for Bids/Bid Validity is extended. In either case, the form must include the complete name of the Bidder.

18.6 The Bid Security shall be payable promptly upon written demand by the Procuring Agency in case any of the conditions listed in **ITB 18** are invoked.

18.7 Unsuccessful Bidders' Bid Security will be discharged or returned as promptly as possible, however in no case later than thirty (30) days after the expiration of the period of Bids Validity prescribed by the Procuring Agency pursuant to **ITB 17**. The Procuring Agency shall make no claim to the amount of the Bid Security, and shall promptly return the Bid Security document, after whichever of the following that occurs earliest:

1. the expiry of the Bid Security;
2. the entry into force of a procurement contract and the provision of a Performance Guarantee, for the performance of the contract if such a guarantee, is required by the Bid documents;
3. the rejection by the Procuring Agency of all Bids;
4. the withdrawal of the Bids prior to the deadline for the submission of Bids, unless the Bids documents stipulate that no such withdrawal is permitted.

18.8 The successful Bidder's Bids Security will be discharged upon the Bidder signing the contract, or furnishing the Performance Guarantee.

18.9 The Bid Security may be forfeited or the Bid Securing Declaration executed:

1. if a Bidder:
 2. withdraws its Bid during the period of Bid Validity as specified by the Procuring Agency, and referred by the Bidder on the Form of Bids except as provided for in **ITB 17.2**; or
 3. does not accept the correction of errors; or
 4. in the case of a successful Bidder, if the Bidder fails:
 5. to sign the contract; or
 6. to furnish Performance Guarantee.

19. Withdrawal, Substitution, and Modification of Bid

19.1 Before Bid submission deadline, any Bidder may withdraw, substitute, or modify its Bid after it has been submitted through EPADS v2.0. Bids requested to be withdrawn, shall be returned unopened to the Bidders through **EPADS v2.0**.

20. Format and Signing of Bid

20.1 The Bidder shall prepare and submit Bids with due diligence after carefully reading all the terms and condition **before bid submission deadline** through EPADS v2.0.

D. Submission of Bids

21. Submission of Bids through EPADS v2.0

21.1 The Technical and Financial Bids if required to submitted, shall be submitted on **EPADS v2.0**.

22. Deadline for Submission of Bids

22.1 Bids shall be received by the Procuring Agency through **EPADS v2.0** before bid submission deadline.

22.2 The Procuring Agency may, under exceptional circumstances, extend the deadline for the submission of Bids, after recording reasons in writing and in an equal opportunity manner.

In such case, all rights and obligations of the Procuring Agency and the Bidders that were previously governed by the original deadline shall thereafter be subject to the revised deadline.

E. Opening and Evaluation of Bids

23. Opening of Bids

23.1 The Bid Evaluation Committee of the Procuring Agency shall open all Bids through the EPADS v2.0, on the date and time specified in the Bid Data Sheet (BDS).

23.2 The Bid Evaluation Committee **shall generate minutes through EPADS v2.0 containing brief details of bid opening process.** The record of the Bid opening shall include, as a minimum: the name of the Bidder, the Bid price if applicable, and the presence or absence of a Bid Security or Bid Securing Declaration.

23.3 The procuring agency shall live broadcast the opening of bids on national media or on their website or digital channels, if the volume of procurement exceeds five hundred million rupees in case of goods and services and one thousand million rupees in case of works.

23.4 In case the date of opening of bid has been declared as public holiday or the procuring agency fail to open bid due to any EPADS v2.0 related issues, the submission and opening of bids shall be shifted to the next working day on the same time.

23.5 In case of Single Stage One Envelope Procedure, the Bidders names, the Bid prices, the total amount of each Bid and, the presence or absence of Bid Security, Bid Securing Declaration and such other details as the Procuring Agency may consider appropriate, will be announced by the Bid Evaluation Committee.

24. Clarification of Bids

24.1 To assist in the examination, evaluation and comparison of Bids of the Bidders, the Procuring Agency may, ask any Bidder for a clarification of its Bid including breakdown of prices.

24.2 The request for clarification and the response shall be sought through EPADS v2.0 **before three days prior to the deadline for submission of bids.** No change in the prices or substance of the Bids shall be sought, offered, or permitted.

24.3 The alteration or modification in the BIDS which in any way affect the following parameters will be considered as a change in the substance of a Bids:

1. evaluation & qualification criteria;
2. required scope of work or specifications;
3. all securities requirements;
4. tax requirements;

5. terms and conditions of Bidding documents.

6. change in the ranking of the Bidder

24.4 From the time of Bids opening to the time of Contract award if any Bidder wishes to contact the Procuring Agency on any matter related to the Bids it should do so through **EPADS v2.0**.

25. Preliminary Examination of Bids

25.1 Prior to the detailed evaluation of Bids, the Procuring Agency will determine whether each Bid:

1. meets the eligibility criteria defined in **ITB 3**;
2. has been prepared as per the format and contents defined by the Procuring Agency in the Bidding documents;
3. is accompanied by the required securities; and
4. is substantially responsive to the requirements of the Bidding documents.

25.2 The Procuring Agency's determination of a Bid's responsiveness will be based on the contents of the Bid itself.

25.3A substantially responsive Bid is one which conforms to all the terms, conditions, and specifications of the Bidding documents, without material deviation or reservation. A material deviation or reservation is one that: -

1. affects in any substantial way the scope, quality, or performance of the Goods;
2. limits in any substantial way, inconsistent with the Bidding documents, the Procuring Agency's rights or the Bidders obligations under the Contract; or
3. if rectified, would affect unfairly the competitive position of other Bidders presenting substantially responsive Bids.

25.3 If a Bids is not substantially responsive, it will be rejected by the Procuring Agency and may not subsequently be evaluated for complete technical responsiveness.

26. Examination of Terms and Conditions; Technical Evaluation

26.1 The Procuring Agency shall examine the Bids to confirm that all terms and conditions specified in the **GCC** and the **SCC** have been accepted by the Bidder without any material deviation or reservation.

26.2 The Procuring Agency shall evaluate the technical aspects of the Bids submitted, to confirm that all requirements specified in Schedule of Requirements and Technical Specifications of the Bidding documents have been met without material deviation or reservation.

26.3 If after the examination of the terms and conditions and the technical evaluation, the Procuring Agency determines that the Bid is not substantially responsive in accordance with **ITB 25.2**, it shall reject the Bid.

27. Correction of Errors

27.1 Bids determined to be substantially responsive will be checked for any arithmetic errors. Errors will be corrected as follows: -

1. if there is a discrepancy between unit prices and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail, and the total price shall be corrected, unless in the opinion of the Procuring Agency there is an obvious misplacement of the decimal point in the unit price, in which the total price as quoted shall govern and the unit price shall be corrected;
2. if there is an error in a total corresponding to the addition or subtraction of sub-totals, the sub-totals shall prevail and the total shall be corrected; and
3. where there is a discrepancy between the amounts in figures and in words, the amount in words will govern.
4. Where there is discrepancy between grand total of price schedule and amount mentioned on the Form of Bids, the amount referred in Price Schedule shall be treated as correct subject to elimination of other errors.

27.2 The amount stated in the Bid will, be adjusted by the Procuring Agency in accordance with the above procedure for the correction of errors and, with the concurrence of the Bidder, shall be considered as binding upon the Bidder. If the Bidder does not accept the corrected amount, its Bid will then be rejected, and the Bid Security may be forfeited or the Bids Securing Declaration may be executed.

28. Conversion to Single Currency

28.1 To facilitate evaluation and comparison, the Procuring Agency will convert all Bids prices expressed in the amounts in various currencies in which the Bids prices are payable. For the purposes of comparison of bids quoted in different currencies, the price shall be converted into a single currency specified in the bidding documents. The rate of exchange shall be the selling rate prevailing on the date of opening of financial bids specified in the bidding documents, in accordance with weighted average customer exchange rates list issued by the State Bank of Pakistan on that day.

29. Evaluation of Bids

29.1 The Bids, quotations, or proposals shall be evaluated by the respective evaluation committees as per evaluation criteria described in the Bidding Documents in accordance with Rule 29 and 30 of the Public Procurement Rules, 2004.

1. Least Cost Based Selection (LCBS)

After meeting the requirements of eligibility, qualification and substantial responsiveness, the bid in compliance with all the mandatory (technical) specifications/requirements and/or requisite quality threshold (if any), and having lowest evaluated cost (or financial proposal) shall be considered Successful Bid.

2. Quality and Cost Based Selection (QCBS)

In such combination, there shall be some specific weightage of both the technical features and financial aspects of the proposal. The financial marks shall be awarded on the basis of inverse proportion calculations. The successful bid shall be declared, on the basis of combined evaluation.

3. Quality Based Selection (QBS)

After meeting the requirements of eligibility, qualification and substantial responsiveness the bid in compliance with all the mandatory (technical) specifications/requirements and attaining highest marks in the Technical Evaluation considering all other qualitative and/or quantitative parameters (or point rated criteria) for technical proposal(s) such as working methodology, implementation plan, resource allocation, additional functionalities, risk management approach, knowledge transfer techniques, post implementation methodology etc. shall be treated as highest ranked bid. Later on, the financial proposal of highest ranked bidder shall be opened, however, in case of failure to proceed further with such a bidder, the procuring agency may resort to second

highest bidder and so on.

29.2 In case of tie of bids, the bidders shall be provided an opportunity to offer their best and final monetary offer through EPADS v2.0. However, in no case the rates shall be higher than the original financial bids.

30. Domestic Preference

30.1 The procuring agency shall evaluate and compare bids, allow for preference to domestic bidders, while competing with the international bidders in accordance with the policies of Federal Government.

The percentage of preference, to be accorded shall be clearly mentioned in the bidding documents under the bid evaluation criteria.

31. Determination of Successful Bid

31.1 Selection technique will be adopted for determining the Successful Bid in accordance with the criteria referred in the BDS or prescribed in the separate section titled as Evaluation Criteria.

31.2 In case where the Procuring Agency adopts the Cost Based Evaluation Technique and, the Bid with the lowest evaluated price from amongst those which are eligible, compliant and substantially responsive shall be the Successful Bid.

31.3 The Procuring Agency may adopt the Quality & Cost Based Selection Technique due to the following two reasons:

1. Where the Procuring Agency knows about the main features, usage and output of the products; however not clear about the complete features, technical specifications and functionalities of the goods to be procured and requires the bidders to submit their proposals defining those features, specifications and functionalities; or

2. Where the Procuring Agency, in addition to the mandatory requirements and mandatory technical specifications, requires parameters specified in EvaluationCriteria to be evaluated while determining the quality of the goods.

31.4 In such cases, the Procuring Agency may allocate certain weightage to these factors as a part of Evaluation Criteria, and may determine the ranking of the bidders on the basis of combined evaluation in accordance with provisions of Rule 2(1)(h) of the Public Procurement Rules, 2004.

32. Abnormally Low Financial Bids

32.1 Where the Bid price is considered to be abnormally low, the Procuring Agency shall perform price analysis either during determination of Successful Bids or as a part of the post-qualification process.

32.2 The Procuring Agency may reject an Abnormally low financial bids.

32.3 In order to identify the Abnormally Low Bids (ALB) following approaches can be considered to minimize the scope of subjectivity:

1. Comparing the Bids price with the cost estimate;
2. Comparing the Bids price with the Bids offered by other Bidders submitting substantially responsive Bids; and
3. Comparing the Bids price with prices paid in similar contracts in the recent past either government- or development partner-funded.

32.4 The Procuring Agency will determine to its satisfaction whether the Bidder that is selected as having submitted the successful bid is qualified to perform the contract satisfactorily.

32.5 The determination will take into account the Bidder's financial, technical, and production capabilities. It will be based upon an examination of the documentary evidence of the Bidder's qualifications submitted by the Bidder, as well as such other information as the Procuring Agency deems necessary and appropriate. Factors not included in these Bidding documents shall not be used in the evaluation of the Bidders' qualifications.

32.6 Procuring Agency may seek "Certificate for Independent Price Determination" from the Bidder and the results of reference checks may be used in determining an award of contract.

Explanation: The Certificate shall be furnished by the Bidder. The Bidder shall certify that the price is determined keeping in view of all the essential aspects such as raw material, its processing, value addition, optimization of resources due to economy of scale, transportation, insurance and margin of profit etc.

32.7 An affirmative determination will be a prerequisite for award of the contract to the Bidder. A negative determination will result in rejection of the Bidder's Bids, in which event the Procuring Agency will proceed to the next ranked Bidder to make a similar determination of that Bidder's capabilities to perform

satisfactorily.

F. Award of Contract

33. Criteria of Award

33.1 The Procuring Agency will award the Contract to the Bidder whose Bids has been determined to be substantially responsive to the Bidding documents and who has been declared as Most Advantageous Bidder.

34. Negotiations

34.1 The procuring agency shall not engage in negotiations with respect to scope and price with the bidder except when the procuring agency conducts a procurement using direct **or negotiated** contracting or a request for proposals with evaluation based on quality alone.

34.2 The procuring agency may negotiate with the most advantageous bid with a view to streamline the work or task execution, at the time of contract finalization on methodology, work plan, staffing, finalizing payment arrangements, delivery arrangements, minor amendments to the special conditions of the contract.

35. Procuring Agency Right to reject all bids

35.1 The Procuring Agency reserves the right to reject all bids or proposals at any time prior to the issuance of the Letter of Award, without incurring any liability, in accordance with Rule 33 of the Public Procurement Rules, 2004.

36. Procuring Agency's Right to Vary Quantities at the Time of Award

36.1 The Procuring Agency reserves the right at the time of contract award to increase or decrease the **quantity of** Goods originally specified in these Bidding documents provided this does not exceed **by** 15%, without any change in unit price or other terms and conditions of the Bids and Bidding documents.

37. Notification of Award

37.1 Prior to the award of contract, the procuring agency shall announce and publish the result of bid evaluation on **EPADS v2.0** in accordance with Rule 35

of the Public Procurement Rules, 2004.

37.2 The Bidder whose Bids has been accepted will be notified of the award by the Procuring Agency prior to expiration of the Bids/Bid Validity period. The Letter of Award will state the sum that the Procuring Agency will pay the successful Bidder in consideration for the delivery of Goods as prescribed by the Contract (hereinafter and in the Contract called the "Contract Price).

37.3 The Letter of award will constitute the formation of the Contract, subject to the Bidder furnishing the Performance Guarantee and signing of the contract.

38. Signing of Contract

38.1 Promptly after issuance of Letter of award, Procuring Agency shall send the successful Bidder the draft Contract, incorporating all terms and conditions as agreed by the parties to the contract.

38.2 Immediately after the Redressal of grievance by the GRC (if any), mandatory standstill period in accordance with Rule 35 of the Public Procurement Rules, 2004 and **after fulfillment of all condition's precedent** of the Contract Form, the successful Bidder and the Procuring Agency shall sign the Contract.

39. Corrupt & Fraudulent Practices

39.1 Procuring Agencies (including beneficiaries of Government funded projects and procurement) as well as Bidders/Contractors under Government financed contracts, observe the highest standard of ethics during the procurement and execution of such contracts, and will avoid to engage in any corrupt and fraudulent practices.

F. Grievance Redressal & Complaint Review Mechanism

40. Constitution of Grievance Redressal

40.1 The Grievance Redressal Committee shall address the grievance, if any submitted by any party, including the bidder, in accordance with Rule 48 of the Public Procurement Rules, 2004 to be read with Redressal of Grievances Regulations, 2021.

40.2 In case if any party or the bidder is not satisfied with the decision of the GRC or if it fails to decide within ten days, the bidder or the party may file an appeal before the Appellate Committee of the Authority in accordance with Rule 48 of the Public Procurement Rules, 2004 to be read with Redressal of Grievances Regulations, 2021.

G. Mechanism of Blacklisting

41. Mechanism of Blacklisting

41.1 The Procuring Agency shall initiate blacklisting proceedings against any bidder, supplier, or contractor in accordance with the Mechanism for Blacklisting Regulations, 2024, read with Rule 19 of the Public Procurement Rules, 2004.

41.2 The blacklisted/debarred bidder may file the review petition before the Authority in accordance with Rule 19 of the Public Procurement Rules, 2004 to be read with Procedure of filing and disposal of Review Petitions Regulations, 2021.

General Conditions of Contract

A. General

1. Definitions

1.1 Unless the context otherwise requires, the following terms whenever used in this Contract shall have the same meaning and shall be interpreted as indicated

1. "Applicable Law" means the laws and any other instruments having the force of law in the Government's Country, or in such other country as may be specified in the Special Conditions of the Contract (SC), as they may be issued and in force from time to time;
2. "Procuring Agency" means:-
 - 2.1. any Ministry, Division, Department or any Office of the Government;
 - 2.2. any authority, corporation, body or organization established by or under a Law or which is owned or controlled by the Government;
3. "The Contract" means an agreement enforceable by law;
4. "The Contract Price" means the price payable to the Bidder under the Contract for the full and proper performance of its contractual obligations;
5. "Ancillary Services" means those services ancillary to the provision of Goods, such as transportation and insurance, and any other incidental services, such as installation, commissioning, provision of technical assistance, training, and other such obligations of the Bidder covered under the Contract;
6. "GCC" means the General Conditions of Contract contained in this section;
7. "SCC" means the Special Conditions of Contract by which the GCC may be amended or supplemented;
8. "Day" means calendar day unless indicated otherwise.
9. "Effective Date" means the date on which this Contract comes into force and effect.
10. "The Bidder" means the individual or corporate body whose Bids to provide the Goods has been accepted by the Procuring Agency;
11. "The Project Site," where applicable, means the place or places named in Bids Data Sheet and technical Specifications;
12. "Government" means the Government of Pakistan;
13. "Subcontractor" means any entity to which the Bidder subcontracts any part of the Goods.
14. "Service" means any object of procurement other than goods or works;
15. "Party" means the Procuring Agency or the Bidder, as the case may be, and "Parties" means both of them;
16. "Foreign Currency" means any currency other than the currency of the country of the Procuring Agency;

17. "Completion Date" means the date of completion of the contract by the Bidder as certified by the Procuring Agency;

18. "In Writing" means communicated in written form with proof of receipt;

19. "Local Currency" means the currency of Pakistan;

2. Application and Interpretation

2.1 These General Conditions shall apply to the extent that they are not superseded by provisions of other parts of the Contract.

2.2 In interpreting these Conditions of Contract headings and marginal notes are used for convenience only and shall not affect their interpretations unless specifically stated; references to singular include the plural and vice versa; and masculine include the feminine. Words have their ordinary meaning under the language of the Contract unless specifically defined.

3. Applicable Law

3.1 The contract shall be governed and interpreted in accordance with the laws of Pakistan, unless otherwise specified in SCC.

4. Governing Language

4.1 The Contract as well as all correspondence and documents relating to the Contract exchanged between the Bidder and the Procuring Agency, shall be written in the **English language** unless otherwise stated in the SCC. Supporting documents and printed literature that are part of the Contract may be in another language provided these are accompanied by an accurate translation of the relevant passages in English, in which case, for purposes of interpretation of the Contract, this translation shall govern.

5. Notices

5.1 Any notice, request, or consent made pursuant to this Contract shall be in writing and shall be deemed to have been made when delivered in person to an authorized representative of the Party to whom the communication is addressed, or when sent by registered mail, telex, telegram, or facsimile to such Party at the address specified in the SCC.

6. Delivery/Location

6.1 The Goods shall be delivered to such locations as the Procuring Agency may approve and as specified in SCC.

7. Authorized Representatives / Authority of Member in charge

7.1 Any action required or permitted to be taken, and any document required or permitted to be executed, under this Contract by the Procuring Agency or the Bidder may be taken or executed by the officials specified in the SCC.

B. Commencement, Completion, Modification, and Termination of Contract

8. Effectiveness of Contract

8.1 This Contract shall come into effect on the date the Contract is signed by both parties and such other later date as may be stated in the SCC.

9. Commencement of Services

9.1 The Bidder shall confirm availability of Key Experts and begin carrying out the Services not later than the number of days after the Effective Date specified in the SCC.

10. Program

10.1 Before commencement of the Services, the Bidder shall submit to the Procuring Agency for approval a Program showing the general methods, arrangements, order and timing for all activities. The Services shall be carried out in accordance with the approved Program as updated.

11. Starting Date/Expiration Date

11.1 The Bidder shall start carrying out the Services Five (05) days after the date the Contract becomes effective, or at such other date as may be specified in the SCC.

11.2 Unless terminated earlier pursuant to Clause **GCC 15** hereof, this Contract shall expire at the end of such time period after the Effective Date as specified in the SCC.

12. Entire Agreement

12.1 This Contract contains all covenants, stipulations and provisions agreed by the Parties. No agent or representative of either Party has authority to make, and the Parties shall not be bound by or be liable for, any statement, representation, promise or agreement not set forth herein.

13. Modification

13.1 Any modification or variation of the terms and conditions of this Contract, including any modification or variation of the scope of the Services, may only be made by written agreement between the Parties. However, each Party shall give due consideration to any Bids for modification or variation made by the other Party.

13.2 In cases of any modifications or variations, the prior written consent of the Procuring Agency is required.

14. Force Majeure

14.1 Definition

For the purposes of this Contract, "Force Majeure" means an event which is beyond the reasonable control of a Party and which makes a Party's performance of its obligations under the Contract impossible or so impractical as to be considered impossible under the circumstances.

14.2 No Breach of Contract

The failure of a Party to fulfill any of its obligations under the contract shall not be considered to be a breach of, or default under, this Contract in so far as such inability arises from an event of Force Majeure, provided that the Party affected by such an event (a) has taken all reasonable precautions, due care and reasonable alternative measures in order to carry out the terms and conditions of this Contract, and (b) has informed the other Party as soon as possible about the occurrence of such an event.

14.3 Extension of Time

Any period within which a Party shall, pursuant to this Contract, complete any action or task, shall be extended for a period equal to the time during which such Party was unable to perform such action as a result

of Force Majeure.

14.4 Payments

During the period of their inability to perform the Services as a result of an event of Force Majeure, the Bidder shall be entitled to continue to be paid under the terms of this Contract, as well as to be reimbursed for additional costs reasonably and necessarily incurred by them during such period for the purposes of the Services and in reactivating the Service after the end of such period.

15. Termination

15.1 By the Procuring Agency

The Procuring Agency may terminate this Contract in case of the occurrence of any of the events specified in paragraphs (a) through (e) of this Clause. In such an occurrence the Procuring Agency shall give at least thirty (30) calendar days' written notice of termination to the Bidder in case of the events referred to in (a) through (d); at least sixty (60) calendar days' written notice in case of the event referred to in (e);

1. If the Bidder fails to remedy a failure in the performance of its obligations hereunder, as specified in a notice of suspension;
2. If the Bidder becomes (or, if the Bidder consists of more than one entity, if any of its members becomes) insolvent or bankrupt or enter into any agreements with their creditors for relief of debt or take advantage of any law for the benefit of debtors or go into liquidation or receivership whether compulsory or voluntary;
3. If the Bidder fails to comply with any final decision reached as a result of arbitration proceedings;
4. If, as the result of Force Majeure, the Bidder is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days;
5. If the Procuring Agency, in its sole discretion and for any reason whatsoever, decides to terminate this Contract;

15.2 By the Bidder

The Bidder may terminate this Contract, by not less than thirty (30) calendar days' written notice to the Procuring Agency, in case of the occurrence of any of the events specified in paragraphs (a) through (d) of this Clause.

1. If the Procuring Agency fails to pay any money due to the Bidder pursuant to this Contract and not subject to dispute within forty-five (45) calendar days after receiving written notice from the Bidder that such payment is overdue.
2. If, as the result of Force Majeure, the Bidder is unable to perform a material portion of the Services for a period of not less than sixty (60) calendar days.
3. If the Procuring Agency fails to comply with any final decision reached as a result of arbitration.
4. If the Procuring Agency is in material breach of its obligations pursuant to this Contract and has not remedied the same within forty-five (45) days (or such longer period as the Bidder may have subsequently approved in writing) following the receipt by the Procuring Agency of the Bidder's notice specifying such breach.

C. Obligations of the Bidder

16. General

16.1 Standard of Performance

1. The Bidder shall deliver the product and carry out the Services with all due diligence, efficiency and economy, in accordance with generally accepted professional standards and practices, and shall observe sound management practices, and employ appropriate technology and safe and effective equipment, machinery, materials and methods. The Bidder shall always act, in respect of any matter relating to this Contract or to the Services, as a faithful adviser to the Procuring Agency, and shall at all times support and safeguard the Procuring Agency's legitimate interests in any dealings with the third parties.

16.2 Law Applicable to Goods

The Bidder shall deliver the goods in accordance with the Contract and in accordance with the Law of Pakistan and shall take all practicable steps to ensure that any of its Experts and Sub-Bidders, comply with the Applicable Law.

17. Conflict of Interests

17.1 Bidder Not to Benefit from Commissions and Discounts.

The remuneration of the Bidder shall constitute the Bidder's sole remuneration in connection with this Contract or the Services, and the Bidder shall not accept for their own benefit any trade commission, discount, or similar payment in connection with activities pursuant to this Contract or to the Services or in the discharge of their obligations under the Contract, and the Bidder shall use their best efforts to ensure that the Personnel, any Subcontractors, and agents of either of them similarly shall not receive any such additional remuneration.

17.2 Bidder and Affiliates Not to be Otherwise Interested in Project

The Bidder agree that, during the term of this Contract and after its termination, the Bidder and its affiliates, as well as any Subcontractor and any of its affiliates, shall be disqualified from providing Goods for any project resulting from or closely related to the Services.

17.3 Prohibition of Conflicting Activities

Neither the Bidder nor its Subcontractors nor the Personnel shall engage, either directly or indirectly, in any of the following activities:

1. during the term of this Contract, any business or professional activities in the Government's country which would conflict with the activities assigned to them under this Contract;
2. during the term of this Contract, neither the Bidder nor their Subcontractors shall hire public employees in active duty or on any type of leave, to perform any activity under this Contract;

18. Confidentiality

18.1 Except with the prior written consent of the Procuring Agency, the Bidder and the Experts shall not at any time communicate to any person or entity any confidential information acquired in the course of the contract.

19. Insurance to be Taken Out by the Bidder

19.1 The Bidder(a) shall take out and maintain, and shall cause any Subcontractors to take out and maintain, at its (or the Subcontractors', as the case may be) own cost but on terms and conditions approved by the Procuring Agency, insurance against the risks, loss or damage, and for the coverage, as shall be specified in the SCC; and (b) at the Procuring Agency's request, shall provide evidence to the Procuring Agency showing that such insurance has been taken out and maintained and that the current premiums have been paid.

20. Bidder's Actions Requiring Procuring Agency's Prior Approval

20.1 The Bidder shall obtain the Procuring Agency's prior approval in writing before taking any of the following actions:

- (a) appointing such members of the Personnel not provided by the Bidder;
- (b) changing the Program of activities; and
- (c) any other action that may be specified in the SCC.

21. Reporting Obligations

21.1 The Bidder shall submit to the Procuring Agency the reports and documents in the numbers, and within the periods as prescribed by the Procuring Agency.

22. Liquidated Damages

22.1 If the Supplier fails to deliver any or all of the Goods or to perform the Services within the period(s) specified in the Contract, the Procuring Agency shall, without prejudice to its other remedies under the Contract, deduct from the Contract Price, as liquidated damages, a sum equivalent to the percentage specified in SCC of the delivered price of the delayed Goods or unperformed Services for each week or part thereof of delay until actual delivery or performance, up to a maximum deduction of the performance security (or guarantee) specified in SCC. Once the said maximum is reached, the Procuring Agency may consider termination of the Contract pursuant to **GCC Clause 15**.

22.2 Correction for Over-payment

If the Intended Completion Date is extended after liquidated damages have been paid, the Procuring Agency shall correct any overpayment of liquidated damages by the Bidder by adjusting the next payment certificate. The Bidder shall be paid interest on the overpayment, calculated from the date of payment to the date of repayment, at the rates specified in SCC.

22.3 Lack of performance penalty

If the Bidder has not corrected a Defect within the time specified in the Procuring Agency's notice, a penalty for Lack of performance will be paid by the Bidder. The amount to be paid will be calculated as a percentage of the cost of having the Defect corrected, assessed as specified in the SCC.

23. Performance Guarantee

23.1 Within Seven (07) days from the issuance of acceptance letter from the Procuring Agency, the successful Bidder shall furnish the Performance Guarantee in shape of ----- at the discretion of the PA in the amount **specified in SCC**. In case the amount of Bids security is equal or greater than

23.2 The proceeds of the Performance Guarantee shall be payable to the Procuring agency as compensation for any loss resulting from the Supplier's failure to complete its obligations under the Contract.

23.3 The Performance Guarantee shall be denominated in the currency of the Contract, or in a freely convertible currency acceptable to the Procuring agency and shall be in the acceptable form as specified in SCC.

23.4 The Performance Guarantee will be discharged by the Procuring agency and returned to the Supplier not later than thirty (30) days following the date of completion of the Supplier's performance obligations under the Contract, including any warranty obligations, unless otherwise **specified in SCC**.

24. Fraud and Corruption

24.1 The Procuring Agency requires the Supplier to disclose any commissions or fees that may have been paid or are to be paid to agents or any other party with respect to the Bidding process or execution of the Contract. The information disclosed must include at least the name and address of the agent or other party, the amount and currency, and the purpose of the commission, gratuity or fee.

25. Sustainable Procurement

25.1 The Bidder shall conform to the sustainable procurement contractual provisions, if and as specified in the SCC.

D. Bidder's Personnel

26. Description of Personnel

26.1 The titles, agreed job descriptions, minimum qualifications, and estimated periods of engagement in the carrying out of the Services of the Bidder's Key Personnel. The Key Personnel listed by title as well as by name are hereby approved by the Procuring Agency.

27. Removal and/or Replacement of Personnel

27.1 Except as the Procuring Agency may otherwise agree, no changes shall be made in the Key Personnel. If, for any reason beyond the reasonable control of the Bidder, it becomes necessary to replace any of the Key Personnel, the Bidder shall provide as a replacement a person of equivalent or better qualifications.

27.2 If the Procuring Agency finds that any of the Personnel have (i) committed serious misconduct or have been charged with having committed a criminal action, or (ii) have reasonable cause to be dissatisfied with the performance of any of the Personnel, then the Bidder shall, at the Procuring Agency's written request specifying the grounds thereof, provide as a replacement a person with qualifications and experience acceptable to the Procuring Agency.

27.3 The Bidder shall have no claim for additional costs arising out of or incidental to any removal and/or replacement of Personnel.

E. Obligations of the Procuring Agency

28. Assistance and Exemptions

28.1 The Procuring Agency shall use its best efforts to ensure that the Government shall provide the Bidder such assistance and exemptions as specified in the SCC.

29. Change in the Applicable Law

29.1 If, after the date of this Contract, there is any change in the Applicable Law with respect to taxes and duties which increases or decreases the cost of the related Services rendered by the Bidder, then the remuneration and reimbursable expenses otherwise payable to the Bidder under this Contract shall be increased or decreased accordingly by agreement between the Parties, and corresponding adjustments shall be made to the amounts referred in the SCC.

30. Services and Facilities

30.1 The Procuring Agency shall make available to the Bidder and the Experts, for the purposes of the Services and free of any charge, the services, facilities and property described , at the times and in the manner specified in the SCC or terms of reference.

30.2 In case that such services, facilities and property shall not be made available to the Bidder, the Parties shall agree on (i) any time extension that it may be appropriate to grant to the Bidder for the performance of the Services, (ii) the manner in which the Bidder shall procure any such services, facilities and property from other sources, and (iii) the additional payments, if any, to be made to the Bidder as a result thereof.

F. Payments to the Bidder

31. Contract Price

31.1 The price payable shall be in Pakistani Rupees unless otherwise specified in the SCC. Prices charged by the Supplier for Goods delivered under the Contract shall not vary from the prices quoted by the Supplier in its Bid.

32. Terms and Conditions of Payment

32.1 Payments will be made to the Bidder according to the payment schedule stated in the SCC and as per actual invoice submitted by the Bidder.

32.2 Unless otherwise stated in the SCC, the advance payment shall be made against the provision by the Bidder of a bank guarantee for the same amount, and shall be valid for the period stated in the SCC. Any other payment shall be made after the conditions listed in the SCC for such payment have been met, and the Bidder have submitted an invoice to the Procuring Agency specifying the amount due.

33. Currency of Payment

33.1 Any payment under this Contract shall be made in the currency(ies) specified in the SCC.

G. Quality Control

34. Identifying Defects

34.1 The principle and modalities of Inspection of the Goods by the Procuring Agency shall be as indicated in the SCC. The Procuring Agency shall check the Bidder's performance and notify him of any Defects that are found. Such checking shall not affect the Bidder's responsibilities. The Procuring Agency may instruct the Bidder to search for a Defect and to uncover and test any service that the Procuring Agency considers may have a Defect. Defect Liability Period is as defined in the SCC.

35. Correction of Defects, and

Lack of Performance Penalty

35.1 The Procuring Agency shall give notice to the Bidder of any Defects before the end of the Contract. The Defects liability period shall be extended for as long as Defects remain to be corrected.

35.2 Every time notice a Defect is given, the Bidder shall correct the notified Defect within the length of time specified by the Procuring Agency's notice.

35.3 If the Bidder has not corrected a Defect within the time specified in the Procuring Agency's notice, the Procuring Agency will assess the cost of having the Defect corrected, the Bidder will pay this amount, and a Penalty for Lack of Performance.

36. Taxes and Duties

36.1 A Supplier shall be entirely responsible for all taxes, duties, fees, etc., incurred until delivery of the contracted Goods to the Procuring Agency.

H. Settlement of Disputes

37. Alternate Dispute Resolution

37.1 The disputes between the parties to the contract may be settled in accordance with Public Procurement Rules, 2004.

37.2 The procuring agency shall refer the matter to the Chief Justice Islamabad High Court or Managing Director PPRA or the Secretary Ministry of Law & Justice for appointment of Arbitrator.

37.3 The fee for the Arbitrator shall be specified in Pak Rupees as determined by the appointing authority which shall be borne and shared equally by the contracting parties.

Certificate of Origin.

The above documents would be required even if the equipment has already been imported and is available with the supplier ex-stock

Number of GC Clause 37

Following is the guidance for Dispute Resolution

1. If any dispute of any kind whatsoever shall arise between the Authority and the Bidder in connection with or arising out of the Contract, including without prejudice to the generality of foregoing, any question regarding its existence, validity, termination and the execution of the Contract – whether during developing phase or after their completion and whether before or after the termination, abandonment or breach of the Contract – the parties shall seek to resolve any such dispute or difference by mutual diligent negotiations in good faith within 14 (fourteen) days following a notice sent by one Party to the other Party in this regard.
2. At future of negotiation the dispute shall be resolved through mediation and mediator shall be appointed with the mutual consent of the both parties.
3. At the event of failure of mediation to resolve the dispute relating to this contract such dispute shall finally be resolved through binding Arbitration by sole arbitrator in accordance with Arbitration Act 1940. The arbitrator shall be appointed by mutual consent of the both parties. The Arbitration shall take place in Islamabad, Pakistan and proceedings will be conducted in English language.
4. The cost of the mediation and arbitration shall be shared by the parties in equal proportion however the both parties shall bear their own costs and lawyer's fees regarding their own participation in the mediation and arbitration. However, the Arbitrator may make an award of costs upon the conclusion of the arbitration making any party to the dispute liable to pay the costs of another party to the dispute.
5. Arbitration proceedings as mentioned in the above clause regarding resolution of disputes may be commenced prior to, during or after completion of the contract.

Notwithstanding any reference to the arbitration herein, the parties shall continue to perform their respective obligations under the Contract unless they otherwise agree that the Authority shall pay the Bidder any monies due to the Bidder.

Rules of procedure for arbitration proceedings:

Any dispute between the Authority and a Bidder who is a national of the Islamic Republic of Pakistan arising in connection with the present Contract shall be referred to adjudication or arbitration in accordance with the laws of the Islamic Republic of Pakistan including Arbitration Act 1940, however above provision shall prevail in referring the case to the Arbitrator.

Place of Arbitration and Award:

The arbitration shall be conducted in English language and place of arbitration shall be at Islamabad. The award of the arbitrator shall be final and shall be binding on the parties.

BIDDER SIGN STAMP

9. Inspections and Tests

Inspection and tests prior to shipment of Goods and at final acceptance are as follows:

- A.** Quality and quantity inspection shall be carried out prior to shipment of Goods by the manufacturer(s)/supplier(s) at the supplier's own expense and responsibility in terms of the approved samples verifying the size, dimensions, quality & finishing of material etc. The supplier/manufacturer shall submit the inspection certificate issued by himself to the Procuring Agency, at the time of submission of the inspection call, in order to ensure that the goods are manufactured / supplied in compliance with the contract.
- B.** The joint inspection shall be carried out at the manufacturer's/supplier's premises by the Chief Engineering (MI) PPMC Lahore or his authorized representative, Deputy Manager (Safety) & alongwith Representative of CBA Union. Notice in writing shall have to be given to the office of Chief Engineer PPMC and Manager Material Management SEPCO simultaneously by the manufacturer/supplier when the store against the order is ready for inspection. The inspection call shall be effective when delivered to SEPCO or Chief Engineer (MI) PPMC Lahore, whichever is later.

The manufacturer/Supplier shall have to deposit Inspection Fee @ 0.5% of the cost of material on order while offering material for inspection in the Account of Chief Engineer (MI) PPMC.

All expenses of Inspector(s) of SEPCO shall be borne by the Tenderer including Boarding/ Lodging, Daily Allowance etc.

Stage inspection may be carried out, if necessary.

- C.** All reasonable facilities as provided in the specification or followed by the industry or trade, in general, shall have to be accorded to the inspecting officers at your expense for carrying out the inspection. The Inspecting Officer may reject a part or the whole of the consignment tendered for inspection, if after inspection, such portion thereof as he may decide, on his discretion, he is satisfied that the consignment is below the requirements of the particulars governing the supply given in the Purchase Order.
- D.** The decision of the Inspecting Officer shall be binding on the supplier. If the stores are rejected as aforesaid, then without prejudice to the right of the Purchaser, the supplier may submit stores in replacement of those rejected but resubmission will not mean the extension of the delivery period. On final rejection, the purchaser shall have the following rights:
- E.** To purchase the rejected goods at the supplier's cost and expense.
- F.** To terminate the contract/PO and recover from the supplier the loss the Company, thereby incurs.
- G.** To take action as per PPRA Rules.
- H.** SEPCO reserves the right to re-inspect, re-test (at its own expense) and, where necessary, reject the Goods after the arrival at the final destination. This shall in no way be limited to or eased because of the Goods having previously been inspected, tested and passed by SEPCO or its representative prior to the Goods' shipment. The decision of SEPCO based on the reports of re-inspection and/or re-testing shall be binding on the manufacturer/supplier.
- I. For Foreign Manufacturers:**
Pre-shipment inspection of the material will be carried out at Foreign Manufacturers works by one inspection officer nominated by CEO SEPCO, 01 Representative of SEPCO. All the arrangement and expenses on account of TA/DA, lodging, boarding and traveling and other expenditures and daily allowance of US 100\$ Per day for the SEPCO inspection officer.

0.5% Inspection fee will not be applicable for Foreign Inspection.

All routine, type, and acceptance tests of the offered Rubber Insulating Gloves shall be carried out strictly in accordance with the applicable technical specifications, standards, and requirements of DDS-53:2020 / NTDC specifications, at the manufacturer's approved laboratory/testing facility prior to dispatch of material.

The successful bidder/supplier shall intimate the inspection schedule to SEPCO well in advance to enable deputation of SEPCO's authorized inspection officer(s) for witnessing the tests. The inspection officer(s) of SEPCO shall witness the relevant tests/protocols and verify compliance of the material with the prescribed specifications and approved standards.

The manufacturer/supplier shall provide certified copies of all test reports, test certificates, and inspection protocols to the inspecting authority, and copies thereof shall be circulated to all concerned offices for record and further necessary action.

BIDDER SIGN STAMP

	<p>All expenses related to testing, inspection, witnessing of tests, laboratory charges, handling, loading/unloading, transportation, boarding/lodging, and any other incidental charges in connection with inspection and testing shall be borne entirely by the supplier/manufacturer, and no additional payment on this account shall be admissible by SEPCO.</p> <p>SEPCO inspection officer reserves the right to reject any material found non-compliant with DDS-53:2020 / NTDC specifications or failing to meet the required test standards at any stage of inspection.</p> <p>10.2.8 The inspecting officers may reject a part of the or whole consignment rendered for inspection if after inspection such portion thereof, as they may decide on their discretion, they are satisfied that the consignment is below the requirements of particulars governing the supply given in letter of Intent / Purchase Order.</p> <p>10.2.9 If the stores are rejected as aforesaid, then without prejudice to the right of the purchaser you may submit stores in replacement of those rejected but re-submission will not mean extension of delivery period.</p> <p>10.2.10 On final rejection the purchaser shall have the following rights:</p> <ol style="list-style-type: none"> a) To purchase the rejected goods at your cost and expense. b) To terminate the contract and recover from you, the loss, incurred by SEPCO. <p>In case, the rejection exceeds 20% of the contracted quantity or volume, the additional fee payable to SEPCO's Inspection Agents will be recovered from you.</p> <p>J. VISUAL INSPECTION: Visual Inspection shall be carried out by SEPCO Material Inspection Committee and will highlight and communicate any defect found at time of visual inspection to this office as well as to the supplier. The concerned Deputy Manager Regional Store SEPCO shall be issued GRN after issuance of Verification Certificate in accordance with Material Quality and as per Specification / Standard by SEPCO Material Inspection Committee.</p>
<p>(Mandatory) Compliance with Technical Specifications and Submission of sample for provision of evaluation</p>	<p>The bidder shall ensure that the offered material strictly complies with specified specifications in BDS Clause 1. Non-compliance shall render the bid non-responsive and liable to disqualification. The bidder shall submit samples, along with complete technical data sheets and catalogues, for verification of quality and conformity with the specified requirements.</p>

Packaging

<p>10.</p>	<p>The Goods shall be packed properly in accordance with standard export packing specified by the Procuring Agency in the Technical Specification. The word "Sukkur Electric Power Company" or SEPCO with PO / Rate Contract No & year together with other essential markings as per the Specification shall be provided.</p>
------------	---

BIDDER SIGN STAMP

Delivery and Documents

11.	The Goods shall be supplied on FCS basis (Free Consignee Stores) at (Regional Stores Rohri & Larkana) SEPCO including free lifting and delivery.
12.	<p>Upon delivery of the Goods, the supplier shall notify SEPCO and mail the following documents to SEPCO:</p> <ol style="list-style-type: none"> one original plus four copies of the Supplier's invoice showing Goods' description, quantity, unit price, and total amount; delivery note, railway receipt, or truck receipt; Manufacturer's or Supplier's warranty certificate; Certificate to the effect that the prime material has been used in the manufacturing of Goods, and if any evidence of used/scrap material is found at a later stage the supplied Goods shall be replaced free of cost with the Goods having prime material. Also, if any manufacturing, design and/or inherent fault is detected at later stage the faulty Goods shall be replaced with Healthy Goods. The inspection procedure for the replaced goods shall be same as per the inspection requirement in the Technical Specifications and the Contract. Inspection certificate issued by the nominated inspectors/agency, and <p>The above documents shall be received by SEPCO before the arrival of the Goods and, if not received, the Supplier will be responsible for any consequent expenses.</p>

Insurance

13.	The Insurance shall be in an amount equal to 110 percent of the FCS value of the Goods from "warehouse" to "warehouse" on "All Risks" basis, including War Risks and Strikes.
-----	---

Warranty

14.	The warranty period shall be for a period of 12 Months from the date of completion of supply. The supplier shall be held responsible for all the losses and the unacceptable Goods shall be substituted with the acceptable Goods free of cost from the date of intimation by the Deputy Manager Regional Stores (Rohri & Larkana) SEPCO Sukkur.
15.	<p>Upon receipt of notice for correction of defects under the warranty period the manufacturer/supplier shall, within 45 days (or the period specified in Specification) and with all reasonable speed, repair or replace the defective goods or parts thereof. The cost of lifting the defective goods its subsequent repair or replacement and returning back to SEPCO stores shall be borne by the supplier.</p> <p>If the supplied goods or its part(s) is/are damaged during the warranty and need repair, its warranty period will be protected. The warranty period shall effectively remain active from the date of intimation of defective goods to the manufacturer/supplier and shall resume again once the defect has been removed and goods supplied back to SEPCO stores.</p> <p>For Example: An item has a warranty period of 12 Months. Its warranty starts on 1st January and it gets defective after its successful use/commissioning after 6 months on 5th July. The manufacturer/supplier is intimated about the defect on 7th July. The remaining warranty is 1 year, 5 months and 23 days. This remaining warranty period shall remain reserved. The item is lifted for repair on 15th July and returned to SEPCO stores on 7th August. The remaining warranty of 1 year, 5 months and 23 days will resume from 7th August.</p> <p>If the Goods under warranty period already repaired are damaged again (second time) the procedure mentioned for the first time damage shall be followed. Accordingly, the same procedure shall be followed for damage/defect for the third time. However, if the goods under warranty period are damaged for the third time the manufacturer/supplier shall be issued a Performance Certificate that will have an impact on its participation in future bids/tenders in SEPCO.</p> <p>The warranty period of the entirely replaced item shall be as per the initial warranty period of new goods.</p> <p>NOTE: Liquidated Damages shall be applicable where there is a delay in delivery of material under the warranty claim. Liquidated Damages shall be applicable as per SCC clause 20.</p>

-----	--

 BIDDER SIGN STAMP

Liquidated Damages

20.	<p>If the supplier fails to deliver the Goods or any consignment thereof within the specified delivery period, the purchaser shall be entitled at his option, either:</p> <p>a) To recover from the supplier liquidated damages levied at the rate of 2% per Month Or a fraction thereof subject to a maximum of ten percent (10%) of the PO/contract price, except:</p> <ul style="list-style-type: none"> • Where un-delivered stores hold up the use of other stores, liquidated damages shall be levied on the total value of the contract/PO. • The recovery of liquidated damages mentioned above can be affected from any payment due to the supplier from any unit of SEPCO Or <p>b) To purchase from elsewhere, without notice to the supplier, at the supplier’s risk and cost, the stores not delivered, without canceling the contract/PO in respect of the consignment not yet due for delivery Or</p> <p>c) To cancel the contract/PO at the supplier’s risk and cost and initiate blacklisting/debarring action as per Public Procurement Rules.</p> <p>In the event of action being taken under (b) or (c) above, the supplier shall be liable for any loss which the purchaser may suffer on the account, but the supplier shall not be entitled to any gain on repurchase made against the supply order.</p>
------------	--

Procedure for Dispute Resolution

21.	As per the Laws of Government of Pakistan.
22.	<p>For Contracts to be entered with Foreign Contractor/ Service Provider: All disputes arising in connection with the present Contract shall be finally settled under the Rules of Conciliation and Arbitration of the International Chamber of Commerce by one or more arbitrators appointed in accordance with said Rules.</p> <p>For Contracts to be entered with Nationals of Pakistan:</p> <p>i. If any dispute of any kind whatsoever shall arise between SEPCO and the Supplier in connection with or arising out of the Contract, including without prejudice to the generality of foregoing, any question regarding its existence, validity, termination and the execution of the Contract– whether during developing phase or after their completion and whether before or after the termination, abandonment or breach of the Contract – the parties shall seek to resolve any such dispute or difference by mutual diligent negotiations in good faith within 7 (seven) days following a notice sent by one Party to the other Party in this regard.</p> <p>ii. At future of negotiation the dispute shall be resolved through Arbitrator shall be appointed by mutual consent of both parties, after consultation between the contractor & procuring agency to act as the adjudicator in case of any arisen disputes in accordance with BDS Clause 48.</p> <p>iii. At the event of failure of mediation to resolve the dispute relating to this contract such dispute shall finally be resolved through binding Arbitration by sole arbitrator in accordance with Arbitration Act 1940. The Arbitration shall take place in SEPCO Sukkur and proceedings will be conducted in English language.</p> <p>iv. The cost of the mediation and arbitration shall be shared by the parties in equal proportion however the both parties shall bear their own costs and lawyer’s fees regarding their own participation in the mediation and arbitration. However, the Arbitrator may make an award of costs upon the conclusion of the arbitration making any party to the dispute liable to pay the costs of another party to the dispute.</p> <p>v. Arbitration proceedings as mentioned in the above clause regarding resolution of disputes may be commenced prior to, during or after delivery of goods.</p> <p>Notwithstanding any reference to the arbitration herein, the parties shall continue to perform their respective obligations under the Contract unless they otherwise agree that SEPCO shall pay the supplier any monies due to the Supplier.</p> <p>Furthermore, the supplier agrees that the territorial jurisdiction of the litigation shall be Sukkur District. No court other than Sukkur District will entertain any judicial matter in respect thereto.</p>

SPECIFICATION DDS-53: 2020

RUBBER INSULATING GLOVES

0. FOREWORD

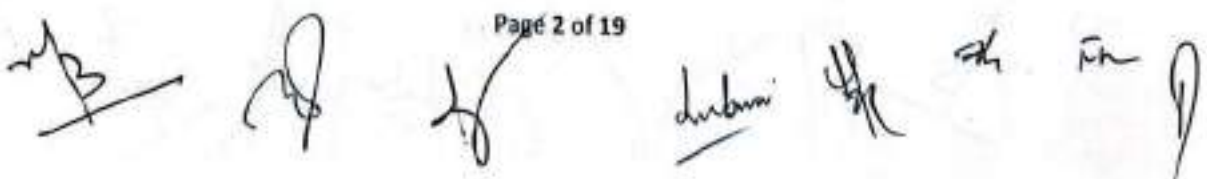

- 0.1 This standard specification has been prepared by the office of the Chief Engineer Standards & Specifications, NTDC Lahore.
- 0.2 This specification is intended for procurement of material and does not include provisions of the contract.
- 0.3 This specification supersedes previous specification DDS-53:2008.
- 0.4 This specification is subject to revision as and when required and for forthcoming purchase orders.
- 0.5 This specification covers gloves of sizes pertaining to typical human arm sizes. However, purchaser will evaluate his demand accordingly.

1. REFERENCE DOCUMENTS

- 1.1 IEC 60903 (amended to-date)
- 1.2 ASTM D120-14a (Manufacturing & testing of rubber insulating gloves)

2. SCOPE

- 2.1 This specification covers rubber insulating gloves for protection from electric shock while working on energized L.T Conductors or equipment.
- 2.2 The gloves are safe enough to work with D-Fuse fittings in conjunction with suitable hot stick and other safety gear of lineman.
- 2.3 Each pair of gloves should only be used with leather protective gloves worn on.
- 2.4 Glove bag is also covered in this specification, whereas the leather protector gloves shall conform to WAPDA specification P-120:78 (amended to-date).

3. DEFINITIONS

3.1 The following definitions are applicable so far as this standard is concerned.

3.1.1 Class

Class of gloves which corresponds to the maximum working voltage.

3.1.2 Cuff Roll

The roll or reinforced edge of an insulating glove at the cuff.

3.1.3 Factice

A vulcanized oil used for the production of a rubber substitute.

3.1.4 Gauntlet

Part of a glove from the wrist to the open part of the glove.

3.1.5 Ozone

A very active form of oxygen that may be produced by corona, arcing or ultraviolet rays.

3.1.6 Reclaimed Rubber

Rubber resulting from the treatment of vulcanized scrap rubber by the application of heat and chemical agents followed by intense mechanical working.

3.1.7 Routine test

Tests conducted by the manufacturer on every glove.

3.1.8 Sample test

Test made on a sample treated as representative of an industrial product.

3.1.9 Seamless

Fluent and without any interruptions.

3.1.10 Type test

Test made to verify that a product meets design criteria.

3.1.11 Vulcanization

A process whereby natural rubber is converted into a more durable material by the addition of sulfur or equivalent curatives.

3.1.12 Proof test voltage

Specified voltage that is applied to a device for the time defined under specified conditions to assure that the electrical strength of the insulation is above a specified value.

3.1.13 Withstand test voltage

Voltage that the device withstands without disruptive discharge or other electric failure when voltage is applied under specified conditions.

3.1.14 Wrist

Narrowest part of the glove between the cuff and the hand.

4. SERVICE CONDITIONS

4.1 AMBIENT TEMPERATURE

Maximum	60 °C
Maximum mean over 24 hours	45 °C
Maximum mean in every year	30 °C
Minimum	- 20 °C

4.2 Relative humidity may range up to 95%

5. MATERIAL

5.1 GLOVES

The rubber insulating gloves, class 0 (Up to maximum 1 kV, working voltage), type-1, non-resistant to ozone shall be made of high-grade rubber compound of natural rubber or synthetic, properly vulcanized and shall not contain any waste rubber, reclaimed rubber or factice.

5.2 GLOVE BAG

It shall be made of rugged, durable and water proof canvas of dark green color. The bag shall be of such construction so as not to get hampered by other T&P being carried by the lineman.

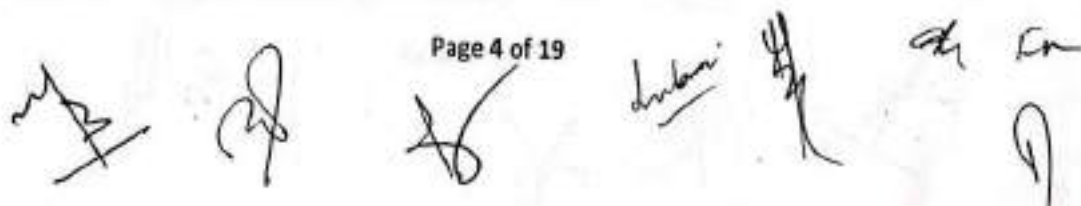

6. MANUFACTURING

6.1 GLOVES

6.1.1 The gloves shall be manufactured by dipping or other seamless process.

6.1.2 The gloves shall be made on a shaped type of former for more comfortable use.

6.1.3 Finished Gloves shall be free from patched areas, embedded foreign matter or other physical defects both inside and outside.

6.1.4 Gloves may be manufactured with or without Cuff Roll.

6.1.5 Retest date will be provided with rubber stamp.

6.2 GLOVE BAG

6.2.1 The bag shall hold one pair of rubber gloves standardized in this specification together with their leather protectors covered by WAPDA specification P-120:78 (amended to-date).

6.2.2 An additional pocket on the bag must be provided for the separate carrying of protectors.

6.2.3 The bag shall be double stitched with nylon or other suitable thread. The canvas shall be free from joints.

6.2.4 The bag shall have flap with a snap button to close it. The position where the snap button is attached to the canvas shall be reinforced. Ventilating brass eyelets shall be provided in the bottom of the bag. The fixing arrangements of these eyelets shall be such that smooth portion of the eyelet is fixed on the inner side of bag.

6.2.5 An adjustable strap double folded and stitched from the same canvas as of the bag shall be fixed to the bag as a shoulder carrying strap.

6.2.6 The following Urdu script in white indelible ink shall be printed in 15 mm thick print on each bag:

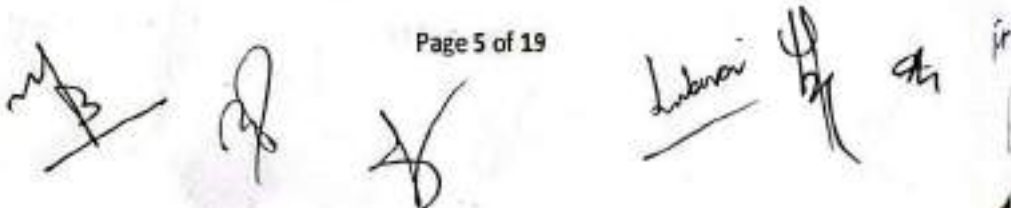

مجھے ہمیشہ استعمال کریں

7. TESTING CRITERIA

For all manufacturers (foreign /local), the lab and test equipment should be accredited and calibrated from ILAC/PNAC laboratories respectively. The routine testing will be carried out in-house (at manufacturer's premises), however, the sample testing will be carried out at an independent lab approved by ILAC/ PNAC, or HV&SC Testing Lab Rawal / Faisalabad Lab or any other third party International/local lab possessing quality assurance validation certificate and duly approved by the Office of Chief Engineer (S&S).

8. QUALIFICATION CRITERIA

The gloves should be purchased from those manufactures (foreign/local) that have international standard of manufacturing and testing facilities.

8.1 LOCAL MANUFACTURER

The local manufacturer/supplier of Rubber Insulating Gloves shall be pre-qualified from the respective DISCO and have the educational order before applying for prototype approval.

8.2 FOREIGN MANUFACTURER

8.2.1 The origin of foreign manufacturer for rubber Insulating Gloves should be any of the following:

i. USA	ii. UK	iii. France	iv. Germany	v. Malaysia
vi. Brazil	vii. Spain	viii. Japan	ix. Poland	x. Australia

8.2.2 The foreign manufacturer must have at least 7 years manufacturing experience of similar gloves and have satisfactory field performance of at least 5 years. In this regard the procuring agency is required to exercise scrutiny of supply record, performance certificates etc. supplied by prospective bidders and assess their technical and commercial credibility before placing them regular/educational purchase order. Moreover, manufacturer's testing & manufacturing capabilities will also be assessed by the inspector at the time of routine testing.

9. PROTOTYPE APPROVAL

9.1.1 The manufacturer/supplier shall seek prototype approval from Chief Engineer (S&S) NTDC.

9.1.2 The manufacturer/supplier shall submit 3 Nos. sample pairs & drawings for Prototype Approval in addition to 3 No. sample pairs to be used during testing. The routine testing will be carried out at manufacturer's premises in the presence of representative of CE (S&S) whereas all the sample tests will be carried out at any ILAC/PNAC accredited independent lab (mentioned in clause 7) duly witnessed by representative of CE(S&S).

9.1.3 The validity of prototype is one (01) year for the first time approval and three (03) years for onward approvals.

10. INSPECTION

10.1 The routine & sample testing shall be carried out/witnessed by the representative of Chief Engineer MI PEPCO and DISCO as mentioned in clause 13.1 & 13.2 and in accordance with the sampling criteria laid down in clause 14.

Note: All expenses related to testing (Prototype/Inspection) including traveling, lodging, boarding and daily allowance of NTDC/PEPCO/DISCO's Engineer/s shall be borne by the manufacturer/supplier.

11. DIMENSIONS

11.1 GLOVES

The internal dimensions of the glove shall be as given below:

- i. Size (Palm Circumference) 9", 10", 11". (The permissible variation in size shall be $\pm \frac{1}{2}$ inch)
- ii. Standard lengths for gloves are 410mm, 460mm (from tip of the second finger to outside edge of the cuff). The permissible variation in length shall be ± 12 mm.
- iii. **THICKNESS LIMITS**
 - a) Minimum thickness in crotch 0.46 mm
 - b) Minimum thickness other than crotch 0.51 mm
 - c) Maximum thickness at any point 1.02 mm

11.2 GLOVE BAG

The bag shall have the following dimensions for easily accommodating the gloves and protectors.

- i. Weight of bag 670 gm/ m² \pm 7 gm/m²
- ii. Length 460 mm \pm 5 mm
- iii. Width 230 mm \pm 5 mm
- iv. Strap width 25 mm \pm 2 mm
- v. Strap length 1150 mm \pm 5 mm
- vi. Pocket length 3/4th of bag length

Note: All the remaining characteristics (width & weight) of pocket are same as of the bag.

12. MATERIAL CHARACTERISTICS

Rubber gloves shall have the following characteristics:

12.1 ELECTRICAL CHARACTERISTICS

- i. Max. Working voltage (AC) 1000 volts (rms)
- ii. Proof test voltage (3 min) 5000 volts (rms)
- iii. Max: Proof test current 7 mA (Leakage current)
- iv. Min: breakdown voltage 10000 volts (rms)
- v. Withstand test voltage after Conditioning for 16 hours in water (AC Moisture Absorption Test) 9 mA (max.) Leakage current

12.2 MECHANICAL CHARACTERISTICS

- i. Min. tensile strength 175 kg/cm²
- ii. Min. elongation 600 %
- iii. Mechanical puncture resistance greater than 18 N/mm² (183.6 g/cm²)

13. TESTS

13.1 ROUTINE TESTS

The following routine tests shall be carried out at manufacturer's premises on each glove and shall meet the requirements stated in clause 11 & 12:-

i.	Visual inspection	(Clause 13.3, 15 & 16)
ii.	Size measurement	(Clause 13.4)
iii.	Length measurement	(Clause 13.5)
iv.	Proof test voltage	(Clause 13.7)
v.	Proof test current	(Clause 13.8)

13.2 SAMPLE TESTS

The following sample tests shall be carried out and shall meet the requirements of clause 12: -

i.	Thickness measurement made on complete glove	(Clause 13.6)
ii.	Breakdown voltage test	(Clause 13.9)
iii.	Withstand test voltage after conditioning for 16 hours in water (AC Moisture Absorption Test)	(Clause 13.10)

(Handwritten signatures and initials)

iv.	strength test	(Clause 13.11)
v.	Elongation test	(Clause 13.12)
vi.	Puncture resistance test	(Clause 13.13)
vii.	Tension set test	(Clause 13.14)
viii.	Aging test	(Clause 13.15)
ix.	Thickness measurement made on the pieces cut from the sample gloves	(Clause 13.16)
x.	Flame retardancy test	(Clause 13.17)
xi.	Low temperature test	(Clause 13.18)
xii.	Durability of marking	(Clause 13.19)

- Note:**
- (i) Unless otherwise specified the gloves shall be preconditioned for a period of $2h \pm 0.5h$ at a temperature of $23^{\circ}C \pm 2^{\circ}C$ and $50\% \pm 5\%$ relative humidity.
 - (ii) Any other test mentioned in the relevant standards in addition to above mentioned shall also be applicable if required.

13.3 VISUAL INSPECTION

Visual inspection shall be carried out by a person with normal or corrected vision without requiring additional magnification. Visual inspection includes shape, workmanship, finish & marking.

Inside and outside surfaces of the gloves shall be free from harmful physical defects. The gloves shall have uniform, smooth surface contour. There shall be no defect such as pinholes, cracks, blisters, cuts, conductive embedded foreign matter, creases, pinch marks, voids (entrapped air), prominent ripples and prominent mold marks etc.

Note: Refer SOP for Rubber Insulating & Leather Protector Gloves approved by Chief Engineer (S&S) NTDC for detailed instructions regarding visual inspection, in-service testing, storage & handling etc.

13.4 SIZE MEASUREMENT

The size shall be measured around the palm at the base of the knuckles as per clause 11.1 (i).

13.5 LENGTH MEASUREMENT

The length shall be measured as per clause 11.1 (ii).

The bottom of the page contains several handwritten signatures and initials in black ink. From left to right, there are approximately seven distinct marks, including what appears to be a signature that reads 'Lubman'.

13.6. THICKNESS MEASUREMENT.

The thickness shall fall within the minimum and maximum limits as per clause 11.1 (iii).

The thickness of each glove shall be measured at not less than four points at the back and four points on the palm. The measurement shall also be made at one or more points in the crotch of the thumb and index finger and in the crotches between the fingers.

These measurements shall be made with a micrometer graduated to 0.02 mm having an anvil about 6 mm in diameter and a presser foot 3.2 ± 0.2 mm in diameter exerting a total force of 85 ± 3 grams.

13.7 PROOF VOLTAGE TEST

13.7.1 The desired test voltage of approximately 50 cycles per second shall be obtained from a step-up transformer having one end of the secondary winding earthed. The ratio of the peak to rms test voltage shall not differ more than 5 percent from that of a sinusoidal wave. Suitable control gear and means for input voltage variation shall be provided. The accuracy of the voltage measuring circuit shall be within $\pm 1kV$ of the test voltage. The voltage shall be measured by any suitable method subject to approval by NTDC which gives correct rms value of the voltage actually applied to the glove. A calibrated sphere gap may be used to check the accuracy of the voltage as indicated by the voltmeter.

13.7.2 TEST PREPARATION

Each glove shall be applied a proof test voltage. The test shall be made at normal room temperature by filling the glove with fresh tap water and immersing it in water to within 40mm of the edge of the cuff. The water level inside and outside of the glove shall be same. The water shall be free of air bubbles and air pockets inside and outside the glove and the exposed portion of the glove above the water level shall be dry. The glove is held in position by means of insulating clips. The water inside and outside the glove forms the internal and external test electrodes respectively. The inner electrode is connected to high voltage supply from the testing transformer by means of chains or wires. Earthing the metallic vessel containing the water forms the external electrode. The glove shall be tested with the right side out.

13.7.3 TEST PROCEDURE

The proof test voltage shall be applied at a low value and gradually and steadily raised at a rate of approximately 1000 volts per second until the specified proof test voltage is reached (or failure occurs). The test period shall be counted from the instant when the specified test voltage is reached. The full test voltage shall be maintained for three minutes. At the end of the test period the applied voltage shall be reduced to at least half value (unless failure has occurred) before opening the test circuit.

13.8 PROOF CURRENT TEST

This test shall be carried out with the same apparatus as per clause 13.7. The proof test current shall be measured directly by inserting a milli ammeter in series with each individual glove in turn. The reading shall be taken near the end of the proof voltage test period.

13.9 BREAKDOWN VOLTAGE TEST

Each sample selected in accordance with clause 14.2 shall be subjected to the breakdown voltage test. This test shall be carried out with the same method as of the proof-voltage test. The voltage shall be applied at a low value and gradually and steadily raised at a rate of approximately 1000V per second until breakdown occurs or until the specified maximum breakdown voltage has been reached or exceed. The maximum voltage observed before breakdown shall be recorded.

13.10 Withstand Test Voltage after Conditioning for 16 Hours in Water (AC Moisture Absorption Test)

Each sample selected in accordance with clause 14.2 shall be given an AC Moisture Absorption/Proof Test. Sample gloves that have passed the AC Proof Test requirement shall be placed in the test equipment, immersed in water in accordance with clause 13.7.2 and soaked for 16 hours. Following the conditioning the gloves shall then be applied proof test voltage initially at low value and increased at a constant rate of rise of approximately 1000 V/sec until the prescribed test voltage level is reached or failure occurs. The proof test current/ leakage current shall then be measured which shall not exceed 9 mA. The applied voltage shall then be reduced to at least half value, unless an electrical failure has occurred, before opening the test circuit.

13.11 Tensile Strength Test

13.11.1 Test Piece.

The test piece shall be cut from the sample rubber glove by punching with standard cutter in the form of a dumb-bell conforming in shape and dimensions to Fig. 1. Reference lines, 20mm apart (l_0), shall be marked on these test pieces of the dumb-bell, symmetrically placed on the narrow part. Any dumb-bell test piece showing irregularities and imperfections shall not be used.

13.11.2 Tensile Testing Machine.

The tensile testing machine shall be power-driven and of such capacity that the load required for the test is not greater than 85% or less than 15% of the maximum of the scale. The rate of traverse of the driven grip shall be 50 ± 5 cm/min. and the power shall be sufficient to maintain the rate substantially constant up to the maximum load capacity of the machine. A traverse of not less than 75 cm shall be possible and the machine shall be equipped to give continuous indication of the load on the test piece during the uninterrupted stretching of the test piece. After the test piece has broken, the machine should give a permanent indication of the maximum load. The machine shall provide a type of grip, which tightens automatically as the tension increases and exerts a uniform pressure across the widened end of the dumb-bell. Each grip shall incorporate a means for positioning so that test pieces are inserted to a depth of 15 to 20mm and are in axial alignment with direction of pull. The load scale of the above machine shall be calibrated by any convenient method at least every six months to ensure that the error does not exceed 1.5% of the applied load or 0.3% of the maximum scale whichever is greater.

13.11.3 Test Procedure

The test shall normally be carried out at $27 \pm 2^\circ\text{C}$. The sample glove shall be conditioned at $27 \pm 2^\circ\text{C}$ for at least 12 hours before the test pieces are cut. Dumb-bell test piece shall be marked with the marker, measured and tested immediately. If not tested immediately, the test piece shall be kept at $27 \pm 2^\circ\text{C}$ until tested. The marking lines shall not be more than 0.3 mm wide. They shall be marked on the narrow part of the test

Page 12 of 19
Handwritten signatures and initials: *Subman*, *En*, and other illegible marks.

pieces as shown in Fig. 1, equidistant from its center and perpendicular to its longitudinal axis.

The thickness of the dumb-bell test piece shall be measured at the center and each end of the narrow part with the thickness gauge. The average value of the three measurements shall be used in calculating the area of the cross section. The width of the piece shall be taken as the distance between the cutting edges of die in the narrow part and shall be measured to the nearest 0.05m.

The tensile strength shall be calculated by dividing the load at break in kg by the initial area of cross section of the test piece in sq. centimeters and shall be expressed in kg/sq. centimeters.

13.12 Elongation Test

This test shall be carried out as per clause 13.11. The elongation at break shall be calculated by subtracting the initial distance between the reference lines on the dumb-bell test piece from the total distance between the lines at the breaking point and expressing this difference as a percentage of the initial distance.

13.13 Mechanical Puncture Resistance

Two circular test pieces, 50 mm in diameter, shall be cut from the glove and each shall be clamped between flat 50 mm diameter test plates. The top plate shall have a circular opening of 6 mm in diameter and the bottom plate a 25 mm diameter circular opening. The edges of both openings shall be rounded to a radius of 0.8 mm (see Fig. 2).

A needle shall be produced from a 5 mm diameter metallic rod and one end shall be machined to produce a taper having an angle of 12° and with the tip rounded to a radius of 0.8 mm (see Fig 2). The needle shall be clean at the time of use.

The needle shall be positioned perpendicularly above the test piece (clamped between the plates) and shall be driven into and through the test piece. The rate of traverse shall be 500 ± 10 mm/min. The force required to puncture the test piece shall be measured. The average resistance to mechanical puncture shall be greater than 18 N/mm.

13.14 Tension Set Test

Three test pieces, having the outline shown shall be cut from each glove under test, one from the palm, one from the back and one from the wrist. The test pieces shall be fitted

Handwritten signatures and initials: MB, 38, [Signature], Lubna, [Signature], Sh, [Signature]

in a straining device consisting of a metal rod or other suitable guide fitted with a pair of holders, one fixed and one movable, to hold the ends of the test piece.

The measurement of the unstrained reference length shall be checked to the nearest 0.1 mm and the test piece shall be placed in the holder. The test piece shall be extended at a speed of between 2 mm/sec and 10 mm/sec to a $400 \pm 10\%$ elongation and held for 10 min. After this time, the strain shall be released at a speed of between 2 mm/sec and 10 mm/sec, and then the test piece shall be removed from the holder and laid free on a flat surface. After a 10 min recovery time the reference length shall be measured again.

The tension set is calculated as a percentage of the initial strain as follows:

$$\text{Tension set} = 100 \frac{l_1 - l_0}{l_s - l_0}$$

Where:

l_0 is the original unstrained reference length

l_s is the strained reference length

l_1 is the reference length after recovery

The tension set shall not exceed 15%.

13.15 Ageing Test

This test shall be carried out to estimate the relative resistance of rubber to age deterioration. The differences in tensile strength and elongation at break between rubber forming the gloves when it is un-aged and when it has been subjected to ageing for 168 hours at $70 \pm 1^\circ\text{C}$ should not be less than 85 % of the un-aged value.

13.15.1 Test Piece

At least three dumb-bell shaped test pieces as prescribed in clause 13.11.1 and as shown in Fig. 1 shall be used for this test. The form of test piece shall be such that no mechanical, chemical, or heat treatment will be required after ageing.

The cross-sectional dimensions of the test piece for calculating the tensile strength shall be measured prior to exposure in the ageing chamber. Reference lines used for measuring elongation shall be marked after the test pieces have been aged.

Only test pieces of similar dimensions having approximately the same exposed areas may be compared with each other.

13.15.2 Apparatus

- i. The air oven shall conform to the following requirements:-
The interior size shall be as follows or of an equivalent volume:-
Min 300 X 300 X 300 millimeters
Max 915 X 915 X 1220 millimeters
- ii. Provisions shall be made for suspending test piece vertically. Without touching each other or the sides of the ageing chamber.
- iii. Temperature variation in various parts of the oven shall not exceed 2°C.
- iv. The heating medium for the ageing chamber shall be air circulated within, at atmospheric pressure.
- v. The source of heat is optional but shall be located in the air supply outside of the ageing chamber.
- vi. A recording thermometer located in the upper central portion of the chamber near the center of the ageing test piece shall be provided to record the actual ageing temperature.
- vii. Automatic temperature control by means of thermostatic regulation shall be used.
- viii. Special precautions shall be taken in order that accurate uniform heating is obtained in all parts of ageing chamber.

13.15.3 Test Procedure:

i) Test of un-Aged Test Pieces:

The tensile strength and ultimate elongation of the original un-aged test piece shall be determined within 96 hours of the start of the ageing period.

ii) Procedure for Accelerated Ageing:

The test pieces for ageing shall be placed in the oven after it has been preheated to the operating temperature of $70 \pm 1^\circ\text{C}$. The ageing interval shall be started at the time the test pieces are placed in the oven and should be continued for a measured time interval of 7 days (168 hours). At the termination of the ageing interval, the test pieces shall be removed from the oven, cooled to room

[Handwritten signatures and initials]

temperature on a flat surface and allowed to rest not less than 16 hours or more than 96 hours before determination of the tensile strength and elongation. Reference lines should be marked on the test pieces for use in measuring elongation.

iii) Test of Aged Test Pieces:

The tensile strength and ultimate elongation of the aged test pieces shall be determined and the final values shall be the median of results from three test pieces.

13.16 Thickness Measurements

The thickness of the test piece shall be measured with the same micrometer gauge as per clause 13.6 but having an anvil at least 37 mm in diameter or if having a smaller anvil, the pressure foot shall be $6\text{mm} \pm 0.02\text{ mm}$ in dia and shall exert a test force of 85 ± 3 grams.

13.17 Flame Retardancy Test

The second or third finger of a glove or the finger of a mitt shall be cut to a length of 60 mm to 70 mm, filled with Plaster of Paris and mounted on a steel shaft 5 mm in diameter and 120 mm long. This shaft shall be centered on the interior of the finger and inserted to approximately mid-point. The test piece shall be allowed to harden for at least 24 h.

The test shall be carried out in a draught-free room. The test piece shall be clamped as indicated in Fig.3. For the purpose of the test, a small burner shall be placed vertically below the test piece, its axis being 5mm from the extremity of the test piece.

The gas supply shall be technical grade methane gas with a suitable regulator and meter to produce a uniform gas flow.

Note: If natural gas is used as an alternative to methane, its heat content should be approximately 37 M.J/m^3 , which has been found to provide similar results.

The nozzle of the burner shall have a diameter of $9.5 \pm 0.5\text{ mm}$ in order to produce a $20 \pm 2\text{ mm}$ high blue flame.

[Handwritten signatures and initials]

The burner is placed remote from the test piece, ignited and adjusted in the vertical position to produce a blue flame 20 ± 2 mm high. The flame is obtained by adjusting the gas supply and the air ports of the burner until a $20 \text{ mm} \pm 2 \text{ mm}$ yellow tipped blue flame is produced. The air supply is increased until the yellow tip disappears. The height of the flame is measured again and corrected if necessary. The burner shall then be placed in the test position as shown in Fig.3. The flame shall be applied to the test piece for 10 sec and then withdrawn. After this period, the testing flame shall be withdrawn. It should be ensured that no air draught interferes with the test. The propagation of the flame on the test piece shall be observed for 55 sec after the withdrawal of the flame. The test is successful if the flame does not reach the reference line located on the test piece at 55 mm from its end during the observation period.

13.18 Low Temperature Test

Three gloves (one at a time) shall be placed in a chamber for 1 h at a temperature of $-25 \pm 3^\circ\text{C}$. Two polyethylene plates $200 \text{ mm} \times 200 \text{ mm} \times 5 \text{ mm}$ thick shall be conditioned at the same temperature and for the same time.

Within 1 min. after being removed from the chamber, the gloves shall be folded at the wrist (see Fig. 4), placed between the two polyethylene plates and subjected to a force of 100 N for 30 s as shown in (see Fig.5).

The test is deemed successful if no tear, break or crack is visible. The test piece shall also pass the dielectric proof test, but without conditioning for moisture absorption.

13.19 Durability of Marking

The durability of marking shall be verified by rubbing the marking with a lint-free cloth soaked in soapy water for 15 sec and then rubbing it for a further 15 sec with a piece of lint free cloth soaked in isopropanol. The test shall be considered as passed if the items of marking remain legible and the letters do not smear.

14. SAMPLING CRITERIA

14.1 Routine Testing

14.1.1 100% quantity of gloves offered for inspection shall be subjected to the routine tests as specified in clause 13.1.

(Handwritten signatures and initials)

Rubber Insulating Gloves (Gauntlet Type) DDS-53:2020

14.1.2 Individual gloves subjected to routine test shall be rejected, if they fail to meet the requirements of any of the clauses 13.3, 13.4, 13.5, 13.7, 13.8, 15 & 16. If during testing the total number of rejection equal / exceeds 2% of the batch size, the complete batch shall be rejected without any further testing.

14.2 Sample Testing

14.2.1 From each lot of any of the following quantities offered for inspection, gloves shall be selected at random, according to the sample size, on the following basis and shall be subjected to the sample tests mentioned under clause 13.2.

Table: 1

Lot Unit = 1 glove	Sample size	Number of defects for acceptance	Number of defects for rejection
Up to 90	3	0	1
91 to 3200	13	1	2
3201 & above	20	2	3

15. MARKING

The following information shall be marked on each glove. Marking shall be confined on the back of the glove and shall be durable non-conductive and so applied as not to injure the glove in anyway.

- a) Manufacturer's name
- b) Sr. No., Month and year of manufacture, Purchaser Name
- c) Size of glove
- d) Maximum Voltage 1000V
- e) Retest date stamp
- f) Applicable standards
- g) Warranty period

Note: Warranty period of the gloves shall be One (01) year after the delivery to the store of DISCO/purchaser specified in the purchase order.

16. PACKING

16.1 Each pair of gloves shall be packed in an individual polythene + canvas bag.

[Handwritten signatures and initials]

- 16.2 Forty such units shall be packed in one cardboard box for shipment.
- 16.3 The box shall be marked with the name of the manufacturer or supplier, type, class, length, size, color, and cuff design.
- 16.4 The packing shall be capable of withstanding the rigors of transportation by rail or road.

SOP FOR IN-SERVICE CARE, STORAGE AND INSPECTION OF RUBBER INSULATING GLOVES & LEATHER PROTECTOR GLOVES

This SOP is issued to facilitate DISCOs regarding in-service care, inspection, testing of Rubber Insulating Gloves (after they have been procured by DISCOs) for protection from electrical shock along with Leather Protector Gloves and to address safety concerns, associated with its use. This SOP also presents methods and techniques for the visual inspection of electrical protective rubber products, including descriptions and photographs of common irregularities found in the said product.

But while this SOP covers many in-service techniques to avert any unfortunate event, it does not appear to address all of the safety concerns, if any, associated with the use of rubber insulating gloves. It is the ultimate responsibility of the user of the said item to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use of this item.

For the purpose of this SOP, the tests/ inspection to be carried out on rubber insulating gloves have been broadly classified into following two categories:-

- i. Checks to be carried out each day and at other times if there is cause to suspect any damage.
- ii. Tests to be carried out on insulating gloves while in service after a certain period of time.

For item (ii) above, the retest cycle is recommended below:-

Category	Retest Cycle
Procured and being used in service	Not exceeding 6 months
Procured but not issued for service	Shall not be placed into service unless electrically tested within the previous 12 months

CHECKS TO BE CARRIED OUT EACH DAY AND AT OTHER TIMES IF THERE IS CAUSE TO SUSPECT ANY DAMAGE.

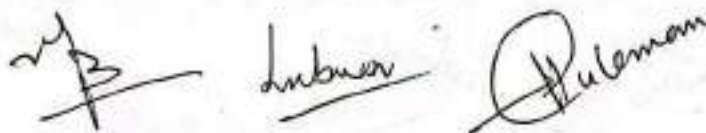

Insulating gloves shall be visually inspected by the user for defects. They shall be inspected over the entire surface and shall be rolled gently between the hands to expose defects and imbedded materials. Two techniques can be employed:-

Note: Visual inspection of rubber gloves shall be carried out in good lighting conditions, which shall be thoroughly cleaned before inspection. The light source should be at least 200 fc (foot candle) (2152.8 lux) with a reflector and should be adjustable for different lighting conditions. Some irregularities can be more easily seen with the light shining down on the surface being examined; other irregularities require a low angle of light to allow the defect to cast a shadow in order to be seen.

a. Rolling

Surface area of rubber insulating gloves be inspected by gently rolling their entire outside and inside surface areas between the hands (Figure-1). This technique involves gently squeezing together the inside surfaces of the glove to bend the outside surface area and create sufficient stress to inside surfaces of the glove to highlight cracks, cuts, or other irregularities. When the entire outside surface area has been inspected in this manner, this test shall be repeated on the inside surface as well (with the glove turned inside-out). Care shall be taken that the glove has been restored to its original position after the test.

Additionally, a more careful inspection of suspicious areas can be achieved by gently pinching and rolling the rubber between the fingers (Figure-2). The thumb and finger crotches shall be stretched by pulling apart adjacent thumb and fingers to look for irregularities in those areas (Figure-3).

Figure 1- Hand Rolling

Figure 2- Pinch Rolling

Figure 3- Inspection- Between Fingers

b. Inflation

Punctures and other small holes in rubber insulating gloves can be traced by inflating gloves with air. Gloves can be inflated manually by grasping the side edges of the opening (Figure-4) and stretching gently, side-by-side, to close and slightly seal the end, (Figure-5). Roll up the gauntlet end about 1 1/2 in. (38 mm) toward the palm by turning the glove in a rotating motion using the rolled edges of the glove opening as an axis. Hold the rolled up end in one hand to contain the entrapped air in the palm and fingers (Figure-6). Hold the inflated glove close to one ear and, with the free hand, squeeze the glove palm to increase the air pressure while listening and feeling for pinhole leaks (Figure 7). Release the entrapped air.

Figure 4- Grasping

Figure 5- Stretching

[Handwritten signature]

Lubawi

[Handwritten signature]

Figure 6- Twirling

Figure 7- Listening and Feeling Trapped Air

Care shall be taken not to over inflate the gloves since their physical characteristics may be adversely affected by over inflating. The gloves shall not be inflated or stretched to more than twice their normal size.

TESTS TO BE CARRIED OUT ON INSULATING GLOVES WHILE IN SERVICE AFTER CERTAIN PERIOD OF TIME.

The field care and inspection of insulating gloves is an important requirement in providing protection from electric shock. The recommended sequence of inspection and testing of gloves that been used in service, is:

1. Check-in, washing, and preliminary (visual) inspection
2. Electrical test
3. Drying
4. Final inspection
5. Field care, rejection

1. CHECK-IN, WASHING, AND PRELIMINARY (VISUAL) INSPECTION

a. Check-in, Washing:

The rubber gloves should be checked in as soon as practicable to eliminate any folds, creases and improper storage. They shall be washed with a mild soap or mild detergent and water. Care should be exercised that cleaning agent being used does not degrade the insulating qualities of the gloves. After washing, the gloves shall be thoroughly rinsed with water to remove all soap or detergent and dried (mild household type chloride bleach may be used for disinfectant purposes).

Note: Gloves may be suspended to allow drainage and air circulation for drying but temperature not in excess of 60 °C.

b. Preliminary (Visual) Inspection

A visual inspection of rubber gloves shall be made in the field by a designated person to determine that gloves are being maintained in a satisfactory condition by the user. The frequency of this inspection shall be at intervals of not more than six months. The person shall be given a detailed inspection over their entire surface for physical defects such as punctures, tears, cuts, bruises or any other obvious conditions that would adversely affect performance. Typical irregularities/ defects that arise during use in the field, and the causes which give rise to them, are discussed below:-

i. Abrasions and scratches

Surface damage that normally occurs when rubber gloves make contact with an abrasive surface (Figures 8 & 9). This type of damage can also occur from contact with sharp objects, which, can sometimes look like the graining on leather.

Paç

Subroto *Prileman*

Figure 8- Abrasion

Figure 9- Scratches

ii. Age cracks

Surface cracks that may look like the crazing (network of fine cracks) of glazed ceramic and become progressively worse with time (Figure 10). It is normally a slow process caused by exposure to sunlight and ozone in the atmosphere and starts in areas of the glove that are under stress.

iii. Cuts

Smooth incisions in the surface of the rubber gloves that are usually caused by a sharp-edged object that can increase in size when they are placed under strain (Figure 11).

Figure 10- Age Cracks

Figure 11- Cuts

iv. Hard spot

A hardened area on the surface that is usually caused by exposure to high heat or chemical attack (Figures 12 & 13).

Figure 12- Hard Spot

Figure 13- Hard Spot

my
B

Lubman

Lubman

v. Nicks, snags

Angular tears, notches, or chip-like injuries in the surface of the rubber that have been caused by barbed wire, sharp pointed tools, staples, splinters or similar sharp edged hazards (Figures 14 & 15).

Figure 14- Nick

Figure 15- Snag

vi. Puncture

Penetration by a sharp object through the entire thickness of the rubber glove (Figure-16).

Figure 16- Puncture

vii. Tears

A separation of the rubber through its entire thickness, usually at an edge, that has been created by a forceful pulling apart of the rubber (Figure-17).

Figure 17- Tear

Lubman

A. Lubman

viii. Tracking

The formation of a carbonized path on the surface of a solid insulating medium, resulting from excessive current leakage over the surface (Figure-18).

Figure 18- Tracking

ELECTRICAL TEST

Rubber insulating gloves issued for service shall be retested for AC test. The interval between date of issue and retest shall be based on work practices and test experience (which shall not exceed 6 months). The gloves shall be subjected to AC Proof Voltage test as per procedure laid down in clause 13.7 of specification DDS-53:2020 (amended to-date).

2. DRYING

The rubber gloves shall be air dried with a temperature not exceeding of 60 °C.

3. FINAL INSPECTION

The entire surface (both inside & outside) of rubber gloves shall be given an inspection for physical defects. The gloves may be inflated with air, as explained above, to enable identification of small defects.

4. FIELD CARE, REJECTION

1. Field care:

- i. The user of leather protector and rubber insulating gloves shall be knowledgeable and instructed in the correct and safe inspection and use of such equipment.
- ii. Leather protector gloves as per specification P-120:78 (amended to-date) must always be worn over rubber insulating gloves to protect from mechanical damage.
- iii. Cloth gloves may be worn inside of insulating gloves for warmth in cold weather and to absorb perspiration (sweating) in hot weather.
- iv. Rubber gloves shall be rinsed as necessary to remove perspiration. Excess water shall be removed by being shaken out and the item then air dried.
- v. The inside surface of rubber gloves may be dusted with a powder.
- vi. Gloves shall not be bundled together with tape.
- vii. Leather protector gloves should not be left on rubber gloves for extended time as this may cause discoloration of rubber gloves due to leaching of the tanning chemicals in the leather protectors (especially when wet).

- viii. Rubber gloves shall be wiped clean of any oil, grease or other damaging substances as soon as practicable.
- ix. Leather protector gloves shall not be used if they have holes, tears, or other defects that affect their ability to give mechanical protection to the insulating gloves.
- x. Care should be exercised to keep the leather protector gloves as free as possible from oils, greases, chemicals, and other materials that may injure the insulating gloves. Protector gloves that become contaminated with injurious materials to the extent that damage may occur to the insulating glove shall not be used as protector gloves unless they have been thoroughly cleansed of the contaminating substance. The inner surface of the protector gloves should be inspected for sharp or pointed objects. This inspection should be made as often as the rubber gloves are inspected.

2. Rejection:

Any glove or sleeve that fails to comply with the retest requirements as explained above shall be rejected. Typical reasons for rejection are holes, tears, punctures, or cuts, texture changes like swelling, softening, hardening, becoming sticky or inelastic. However, defects of minor nature need not be a cause for rejection. Gloves that have been rejected and are not suitable for electrical service shall be defaced, cut or otherwise marked and identified to indicate that they are not to be used for electrical service again.

STORAGE

Gloves shall be stored in a location as cool, dark and dry as possible. The location shall be as free as practicable from ozone, chemicals, oils, solvents, damaging vapors and fumes, and away from electrical discharges and sunlight. Gloves shall be stored in their natural shape. Rubber insulating gloves and leather protector gloves should be kept inside the glove bag as mentioned in specification DDS-53:2020 that is designed and used exclusively for them. Gloves shall not be stored folded, creased, inside out, compressed or in any manner that will cause stretching or compression.

SECTION - VI

STANDARD FORMS

FOR

Single Stage Two Envelope Procedure

Form of Qualification Information

1. Individual Bidders or Individual Members of Joint Ventures

1.1 Constitution or legal status of Bidder: *[attach copy]*

Place of registration: *[insert]*

Principal place of business: *[insert]*

Power of attorney of the signatory of Bid: *[attach]*

1.2 Total annual volume of Services performed in 3 years, in PKR specified in the Bid Data Sheet: *[insert]*

1.3 Services performed as prime Supplier on the provision of Services of a similar nature and volume over the last 3 years. The values should be indicated in the same currency used for Item 1.2 above. Also, list details of work underway or committed, including the expected completion date.

Project Name and Country	Name of Purchasing Agency and Contact Person	Type of Services provided and year of completion	Value of Contract
(a)			
(b)			
(c)			
(d)			

1.4 Major items of Supplier's Equipment proposed for carrying out the Services. List all information requested below. Refer also to ITB 13.3(c).

Item of equipment	Description, make, and age (years)	Condition (new, good, poor) and number available	Owned, leased (from whom?), or to be purchased (from whom?)
(a)			
(b)			
(c)			
(d)			

1.5 Qualifications and experience of key personnel proposed for administration and execution of the Contract. Attach biographical data. Refer also to ITB 13.3(d).

Position	Name	Years of experience (general)	Years of experience in proposed position
(a)			
(b)			

1.6 Proposed sub-contracts and firms involved. Refer to GCC 24.

Sections of the Services	Value of Sub-contract	Sub-contractor (Name and Address)	Experience in providing similar services
(a)			
(b)			

- 1.7 Financial reports for the last 3 years: balance sheets, profit and loss statements, auditors' reports, etc. List below and attach copies.
- 1.8 Evidence of access to financial resources to meet the qualification requirements: cash in hand, lines of credit, etc. List below and attach copies of support documents. We certify/confirm that we comply with eligibility requirements as per ITB 3 of the bidding documents.
- 1.9 Name, address, telephone, telex, e-mail, and facsimile numbers of banks that may provide references if contacted by SEPCO.
- 1.10 Information regarding any litigation, current or within the last 5 years, in which the Bidder is or has been involved.

Other party(ies)	Cause of dispute	Details of litigation award	Amount involved
a)			
b)			

- 1.11 Information regarding Occupation Health and Safety Policy and Safety Records of the Bidder. Attach valid certificates.
- 1.12 Statement of compliance with the requirements of ITB 3.4.
- 1.13 Proposed Program (service work method and schedule). Descriptions, drawings, and charts, as necessary, to comply with the requirements of the bidding documents.

2. Joint Ventures

- 2.1 The information listed in 1.11 - 1.12 above shall be provided for each member of the joint venture.
- 2.2 The information in 1.13 above shall be provided for the joint venture.
- 2.3 Attach the power of attorney of the signatory(ies) of the Bid authorizing the signature of the Bid on behalf of the joint venture.
- 2.4 Attach the Contract among all members of the joint venture (and which is legally binding on all members), which shows that
- all members shall be jointly and severally liable for the execution of the Contract in accordance with the Contract terms;
 - one of the members will be nominated as being in-charge, authorized to incur liabilities, and receive instructions for and on behalf of any and all members of the joint venture; and
 - the execution of the entire Contract, including payment, shall be done exclusively with the member in charge.

3. Additional Requirements

- 3.1 Bidders should provide any additional information required in the Bid Data Sheet and to fulfill the requirements of ITB 12.1, if applicable.

We, the undersigned declare that

- The information contained in and attached to this form is true and accurate as of the date of bid submission *Or [delete statement which does not apply]*
- The originally submitted pre-qualification information remains essentially correct as of date of submission

Authorized Signature: _____

Name and Title of Signatory: _____

Name of Bidder: _____

Address: _____

Form of Bid

Bid /Tender No. _____

Date: _____

To

Manager
Material Management
SEPCO, Sukkur.

We, the undersigned, declare that:

Having examined the Bidding Documents including Addenda, the receipt of which is hereby duly acknowledged, we, the undersigned, offer to deliver _____ in conformity with the said Bidding Documents for the sum of _____ or such other sums as may be ascertained in accordance with the Schedule of Prices attached herewith and made part of this Bid.

We declare that our Bidding price did not involve agreements with other Bidders for the purpose of bid suppression.

The Arbitrator shall be appointed by mutual consent of both parties, after consultation between the contractor & procuring agency to act as the adjudicator in case of any arisen disputes in accordance with **BDS Clause 48**.

We undertake, if our bid is accepted, to deliver the goods in accordance with the delivery schedule specified in the Schedule of Requirements.

If our Bid is accepted, we undertake to provide a Performance Security (Guarantee) in the form, in the amounts, and within the 15-days from the date of issue of Letter of Intent (LOI). Failure to provide the Performance Guarantee within the stipulated time, the delivery period shall start. The delayed period shall be deducted from the delivery schedule while issuing the Purchase Order.

We declare that as Bidder(s) we do not have a conflict of interest with reference to **ITB Clause 3.7**.

We agree to abide by this Bid for the Bid Validity Period specified in BDS 22, and it shall remain binding upon us and may be accepted at any time before the expiration of that period.

We are not participating, as Bidders, in more than one Bid in this Bidding process, other than alternative offers in accordance with the Bidding Documents.

Our firm, its affiliates or subsidiaries – including any subcontractors or suppliers for any part of the contract – has not been declared ineligible by the Government of Pakistan under Pakistan's laws or official regulations.

Until a formal Contract is prepared and executed, this Bid, together with your written acceptance thereof and your notification of award, shall constitute a binding Contract between us.

We understand that you are not bound to accept the lowest or any Bid you may receive.

We certify/confirm that we comply with the eligibility requirements as per **ITB Clause 3** of the Bidding Documents.

Dated this _____ day of _____ 20_____.

BID SECURITY FORM

To: Chief Executive Officer SEPCO

Whereas [name of the Bidder] (hereinafter called "the Bidder") has submitted its Bid dated [date of submission of Bid] for the delivery of [name and/or description of the goods] (hereinafter called "the Bid").

KNOW ALL PEOPLE by these presents that WE [Name of Financial Institution] of [name of country], having our registered office at [address of Financial Institution] (hereinafter called "the Bank"), are bound unto [name of SEPCO] (hereinafter called "SEPCO") in the sum of [amount] for which payment well and truly to be made to the said SEPCO, the Bank binds itself, its successors, and assigns by these presents.

Sealed with the Common Seal of the said Bank this _____ day of _____ 20_____.

The conditions of this obligation are:

1. If the Bid
 - (a) have withdrawn or modified our Bid during the period of Bid Validity specified in the Form of Bid;
 - (b) Disagreement to arithmetical correction made to the Bid price; or
 - (c) having been notified of the acceptance of our Bid by SEPCO during the period of Bid Validity, (i) failure to sign the contract if required by SEPCO to do so or (ii) fail or refuse to furnish the Performance Security or to comply with any other condition precedent to signing the contract specified in the Bidding Documents.
2. We undertake to pay to SEPCO up to the above amount upon receipt of its first written demand, without SEPCO having to substantiate its demand, provided that in its demand SEPCO states the amount claimed by it is due to it, owing to the occurrence of one or both of the conditions, specifying the occurred condition or conditions.

This guarantee shall remain in force up to and including twenty-eight (28) days after the period of Bid Validity, and any demand in respect thereof should reach the Bank not later than the above date.

Bid Security:

Bid Security / Guarantee i.e. **Rs. 372,000/-**, the bid validity period for the aforementioned tenders shall 120 days. The bank instrument shall remain valid for an additional 28 days beyond the validity date.

Bid Security / Pay order No. _____ Date: _____

Bid Security Validity _____

Name of Bank & Branch _____

Delivery Schedule:

- **100% quantity shall be supplied within 90-days or earlier** from the date of issue of purchase order. Delivery period shall be completed not later than the dates specified.

For Local Manufacturers:

- The terms "Delivery Date" shall mean the date of 1st day of Inspection or 15th day of Inspection Call whichever is earlier, shall be reckoned as date of delivery of Store to Consignee provided the goods accepted for supply have been delivered within 20-days of issue of Inspection Certificate subject to the condition that the supplier / manufacturer offers the material for Inspection at least 15-days prior to the due date and the offer is not rejected due to being a fake call or material not conforming to the specification.

For Foreign Manufacturers:

- Delivery period is the essence of the Contract and delivery must be completed not later than the dates specified. The terms "Delivery Date" shall mean the date of 1st day of Inspection or 60th day of Inspection Call whichever is earlier, shall be reckoned as date of delivery of Store to Consignee provided the goods accepted for supply have been delivered within 60-days of issue of Inspection Certificate subject to the condition that the supplier / manufacturer offers the material for Inspection at least 60-days prior to the due date and the offer is not rejected due to being a fake call or material not conforming to the specification

Note:

- This tender is governed by Procurement Rules issued by PPRA (Amended todate) and WAPDA General condition of contract Dated 12/08/1984 (Amended todate).
- Marking of page numbers of the bid alongwith all enclosures must be ensured in sequence to ascertain the number of documents attached with the bidding documents.

Current Contract Commitments / Contracts in Progress Form

1. Name of Contract(s)
2. Procuring Agency Contact Information [insert address, telephone, fax, e-mail address]
3. Value of outstanding contracts [current PKR equivalent]
4. Estimated Delivery Date
5. Average monthly invoices over the last six months (PKR/mon.)

Financial Situation and Performance

[The following table shall be filled in for the Applicant and for each member of a Joint Venture]

Applicant's Name: *[insert full name]*

Date: *[insert day, month, year]*

Joint Venture Member Name: *[insert full name]*

IFP No. and title: *[insert IFP number and title]*

Page *[insert page number]* of *[insert total number]* pages

1. Financial data

Type of Financial information in (currency)	Historic information for previous <i>[insert number]</i> years, <i>[insert in words]</i> (amount in currency, currency, exchange rate*, PKR equivalent)				
	Year 1	Year 2	Year 3		
Statement of Financial Position (Information from Balance Sheet)					
Total Assets (TA)					
Total Liabilities (TL)					
Total Equity/Net Worth (NW)					
Current Assets (CA)					
Current Liabilities (CL)					
Working Capital (WC)					
Information from Income Statement					
Total Revenue (TR)					
Profits Before Taxes (PBT)					
Cash Flow Information					
Cash Flow from Operating Activities					

* Refer ITA 14 for the exchange rate

3. Financial documents

The Applicant and in case of JV, members of JV shall provide copies of financial statements for *[number]* years pursuant Section III, Qualifications Criteria and Requirements. The financial statements shall:

- (a) reflect the financial situation of the Applicant or in case of JV member, and not an affiliated entity (such as parent company or group member).
 - (b) be independently audited or certified in accordance with local legislation.
 - (c) be complete, including all notes to the financial statements.
 - (d) correspond to accounting periods already completed and audited.
- Attached are copies of financial statements¹ for the *[number]* years required above; and complying with the requirements.

¹ If the most recent set of financial statements is for a period earlier than 12 months from the date of Application, the reason for this should be justified.

Average Annual Turnover (Annual Sales Value)

[The following table shall be filled in for the Applicant and for each member of a Joint Venture]

Applicant's Name: *[insert full name]*

Date: *[insert day, month, year]*

Joint Venture Member Name: *[insert full name]*

IFP No. and title: *[insert IFP number and title]*
