3. the Bidder is convicted, by a final judgment, of any offence involving professional conduct;

4. the Bidder is blacklisted locally or by international organizations and hence debarred due to involvement in corrupt and fraudulent practices, or performance failure or due to breach of Bid securing declaration.

3.8 As and when required, bidders shall provide to the Procuring Agency evidence of their eligibility, proof of compliance with the necessary legal requirements to carry out the contract effectively.

3.9 Bidders shall submit Bids relating to the nature, conditions and modalities of sub-contracting wherever the sub-contracting of any elements of the contract amounting to more than ten (10) percent of the Bid price is envisaged.

4. Eligible Goods and Related Services

4.1 All goods and related services to be supplied under the contract shall have their origin in eligible source countries, and all expenditures made under the contract will be limited to such goods and services. For purpose of this Bid, ineligible countries are the countries declared ineligible by the Federal Government.

5. One Bid per Bidder

5.1 A bidder shall submit only one Bid, in the same bidding process, either individually as a Bidder or as a member in a joint venture or any similar arrangement.

5.2 The Bidder shall not engage a subcontractor for any portion of the contract if the value of such subcontracting exceeds thirty percent (30%) of the total contract amount.

6. Cost of Bidding

6.1 Any cost incurred by the bidder relating to the preparation and submission of its Bid shall be borne by the bidder, and the Procuring Agency shall in no case be responsible or liable for those costs, regardless of the conduct or outcome of the bidding process.

B. Bidding Documents

7. Contents of Bidding Document

7.1 The Goods required, Bidding procedures, and terms and conditions of the contract are prescribed in the Bidding Documents. In addition to the Invitation for Bids, the Bidding documents which should be read in conjunction with any addenda issued in accordance with **ITB 9.1** include:

Section I -Invitation to Bids

Section II Instructions to Bidders (ITB)

Section III Bid Data Sheet (BDS)

Section IV Evaluation Criteria, Specifications, Schedule of Requirements

Section V Bid Forms

Section VI General Conditions of Contract (GCC)

Section VII Special Conditions of Contract (SCC)

Section VIII Contract Forms

7.2 The Bidder is expected to examine all instructions, forms, terms and specifications in the Bidding documents. Failure to furnish all the information required in the Bidding documents through **EPADS v2.0** will be at the Bidder's risk and may result in the rejection of his Bids.

8. Clarification of Bidding documents

8.1 A prospective Bidder requiring any clarification of the Bidding documents may notify the Procuring Agency through **EPADS v2.0**.

8.2 The Procuring Agency will within three (3) working days after receiving the request for clarification, respond to any request for clarification through **EPADS v2.0** provided that such request is received not later than three (03) days prior to the deadline for the submission of Bids as prescribed in **ITB 22**

8.3 Copies of the Procuring Agency's response will be forwarded to all identified Prospective Bidders through **EPADS v2.0**, including a description of the inquiry, but without identifying its source.

8.4 Should the Procuring Agency deem it necessary to amend the Bidding document as a result of a clarification, it shall do so following the procedure under **ITB 9**.

8.5 If indicated **in the BDS**, the Bidder's designated representative is invited at the Bidder's cost to attend a pre-Bid meeting at the place, date and time mentioned **in the BDS**. During this pre-Bid meeting, prospective Bidders may request clarification of the schedule of requirement, the Evaluation Criteria or any other aspects of the Bidding document.

8.6 Minutes of the pre-Bid meeting, if applicable, including the text of the questions asked by Bidders, including those during the meeting (without identifying the source) and the responses given, together with any responses prepared after the meeting will be uploaded on **EPADS v2.0**. Any modification to the Bidding documents that may become necessary as a result of the pre-Bid meeting shall be made by the Procuring Agency exclusively through the use of an Addendum pursuant to **ITB 9**. Non-attendance at the pre-Bid meeting will not be a cause for disqualification of a Bidder.

9. Amendment of Bidding documents

9.1 Before the deadline for submission of Bids, the Procuring Agency for any reason, whether at its own initiative or in response to a clarification requested by a prospective Bidder or Pre-Bid meeting may modify the Bidding documents by issuing addenda through **EPADS v2.0**.

9.2 The Procuring Agency shall promptly publish the addendum through **EPADS v2.0**.

9.3 Any addendum issued including the notice of any extension of the deadline shall also be communicated through EPADS v2.0 to all the bidders who have already submitted their bids. Such bidders shall have the right to withdraw their already submitted bid and re-submit the revised bid prior to the original or extended bid submission deadline.

9.4 To give prospective Bidders reasonable time in which to take an addendum/corrigendum into account in preparing their Bids, the Procuring Agency may, at its discretion, extend the deadline for the submission of Bids through **EPADS v2.0**:

Provided that the Procuring Agency shall extend the deadline for submission of Bids, if such an addendum is issued within last three (03) days of the Bids submission deadline.

C. Preparation of Bids

10. Language of Bid

10.1 The Bid prepared by the bidder, as well as all correspondence and documents relating to the Bids exchanged by the Bidder and the Procuring Agency shall be written in the English language unless otherwise specified in the BDS. Supporting documents and printed literature furnished by the Bidder may be in another language provided they are accompanied by an accurate translation of the relevant pages in the English language unless otherwise specified in the **BDS**, in which case, for purposes of interpretation of the Bidder, the translation shall govern.

11. Documents and samples Constituting the Bid

11.1 The Bid prepared by the Bidder shall constitute the documents required in the **BDS**.

Details of sample(s) where applicable and requested in the BDS.

1. Documentary evidence established in accordance with ITB that the Bidder is eligible and/or qualified for the subject bidding process;
2. Documentary evidence establish that the Bidder has been authorized by the manufacturer to deliver the goods into Pakistan, where required and where the supplier is not the manufacturer of those goods;
3. Documentary evidence establish that the goods and related services to be supplied by the Bidder are eligible goods and services, and conform to the Bidding Documents;
4. Bid security or Bid Securing Declaration furnished in accordance with **ITB 18**.

12. Documents Establishing Eligibility of the Goods and Conformity to Bidding documents

12.1 To establish the conformity of the bidder to the Bidding document, the Bidder shall furnish as part of its Bids the documentary evidence that Goods provided conform to the technical specifications and standards.

13. Documents Establishing Eligibility and Qualification of the Bidder

13.1 The Bidder shall furnish, as part of its Bid, all those documents establishing the Bidder's eligibility to participate in the Bidding process and/or its qualification to perform the contract if its Bid is accepted.

14. Form of Bids

14.1 The Bidder shall fill the Form of Bid furnished in the Bidding documents. The Bids Form must be completed without any alterations to its format and no substitute shall be accepted.

15. Bids Prices

15.1 The Bids Prices quoted by the Bidder in the Form of Bid and in the Price Schedules shall conform to the requirements specified below or exclusively mentioned hereafter in the Bidding documents.

15.2 All items in the Schedule of Requirement must be listed and priced separately in the Price Schedule(s). If a Price Schedule shows items listed but not priced and neither explicitly denied, their prices shall be construed to be included in the prices of other items.

15.3 Items not listed in the Price Schedule shall be assumed not to be included in the Bid, and provided that the Bid is still substantially responsive in their absence or due to their nominal nature, the corresponding average price of the respective item(s) of the remaining substantially responsive Bidder(s) shall be construed to be the price of those missing item(s)

15.4 The Bid price to be quoted in the Form of Bid in accordance with **ITB 14.1** shall be the total price of the Bid.

15.5 The Bidder shall indicate on the appropriate Price Schedule, the unit prices (where applicable) and total Bid price of the Goods it proposes to provide under the contract.

15.6 Prices quoted by the Bidder shall be fixed during the Bidder's performance of the contract and not subject to variation on any account. A Bid submitted with an adjustable price will be treated as non-responsive and shall be rejected.

16. Bids Currencies

16.1 Prices shall be quoted in Pakistani Rupees unless otherwise specified in the BDS in accordance with Rule 30 (2) of the Public Procurement Rules, 2004.

17. Bids Validity Period

17.1 Bids shall remain valid for the period specified in the **BDS** after the Bid submission deadline prescribed by the Procuring Agency. A Bid valid for a shorter period shall be rejected by the Procuring Agency as non-responsive. The period of Bid validity will be determined from the complementary Bid securing instrument, i.e. the expiry period of Bid Security or Bids Securing Declaration as the case may be.

17.2 The procuring agency shall ordinarily be under an obligation to process and evaluate the bid and to issue letter of award within the stipulated bid validity period.

17.3 Under exceptional circumstances, prior to the expiration of the initial Bid validity period, the Procuring Agency may request the Bidders' consent to an extension of the period of validity of their Bids only once through **EPADS v2.0**, for the period not more than the period of initial bid validity. The Bid Security provided under **ITB 18** shall also be suitably extended. A Bidder may refuse the request without forfeiting its Bid security or causing to be executed its Bid Securing Declaration. A Bidder agreeing to the request will not be required nor permitted to modify its Bid, but will be required to extend the validity of its Bid Security or Bid Securing Declaration for the period of the extension.

18. Bid Security or Bid Securing Declaration

18.1 The Bidder shall furnish as part of its Bid, a Bid Security in accordance with Rule 25 of the Public Procurement Rules, 2004.

18.2 The original Bid Security shall be enclosed within the sealed envelope and to be submitted physically before closing time for submission of bids. Whereas, scanned copy of bid security shall be uploaded electronically through EPADS v2.0 before closing hours for submission of bids.

18.3 The Bidder who failed to submit the original Bids security before the submission deadline shall be disqualified straightaway.

18.4 The Bid Security or Bid Securing Declaration is required to protect the Procuring Agency against the risk of Bidder's conduct which would warrant the security's forfeiture, pursuant to **ITB 18.7**.

18.5 The Bid Security shall be denominated in the local currency, and it shall be a Bank Draft in the name of the Procuring Agency and valid for twenty-eight (28) days beyond the end of the validity of the Bid. This shall also apply if the period

for Bids/Bid Validity is extended. In either case, the form must include the complete name of the Bidder.

18.6 The Bid Security shall be payable promptly upon written demand by the Procuring Agency in case any of the conditions listed in **ITB 18** are invoked.

18.7 Unsuccessful Bidders' Bid Security will be discharged or returned as promptly as possible, however in no case later than thirty (30) days after the expiration of the period of Bids Validity prescribed by the Procuring Agency pursuant to **ITB 17**. The Procuring Agency shall make no claim to the amount of the Bid Security, and shall promptly return the Bid Security document, after whichever of the following that occurs earliest:

- a. the expiry of the Bid Security;
- b. the entry into force of a procurement contract and the provision of a Performance Guarantee, for the performance of the contract if such a guarantee, is required by the Bid documents;
- c. the rejection by the Procuring Agency of all Bids;
- d. the withdrawal of the Bids prior to the deadline for the submission of Bids, unless the Bids documents stipulate that no such withdrawal is permitted.

18.8 The successful Bidder's Bids Security will be discharged upon the Bidder signing the contract, or furnishing the Performance Guarantee.

18.9 The Bid Security may be forfeited or the Bid Securing Declaration executed:

- a. if a Bidder:
 - b. withdraws its Bid during the period of Bid Validity as specified by the Procuring Agency, and referred by the Bidder on the Form of Bids except as provided for in **ITB 17.2**; or
 - c. does not accept the correction of errors; or
 - d. in the case of a successful Bidder, if the Bidder fails:
 - e. to sign the contract; or
 - f. to furnish Performance Guarantee.

19. Withdrawal, Substitution, and Modification of Bid

19.1 Before Bid submission deadline, any Bidder may withdraw, substitute, or modify its Bid after it has been submitted through EPADS v2.0. Bids requested to be withdrawn, shall be returned unopened to the Bidders through **EPADS v2.0**.

20. Format and Signing of Bid

20.1 The Bidder shall prepare and submit Bids with due diligence after carefully reading all the terms and condition **before bid submission deadline** through EPADS v2.0.

D. Submission of Bids

21. Submission of Bids through EPADS v2.0

21.1 The Technical and Financial Bids if required to submitted, shall be submitted on **EPADS v2.0**.

22. Deadline for Submission of Bids

22.1 Bids shall be received by the Procuring Agency through **EPADS v2.0** before bid submission deadline.

22.2 The Procuring Agency may, under exceptional circumstances, extend the deadline for the submission of Bids, after recording reasons in writing and in an equal opportunity manner.

In such case, all rights and obligations of the Procuring Agency and the Bidders that were previously governed by the original deadline shall thereafter be subject to the revised deadline.

E. Opening and Evaluation of Bids

23. Opening of Bids

23.1 The Bid Evaluation Committee of the Procuring Agency shall open all Bids through the EPADS v2.0, on the date and time specified in the Bid Data Sheet (BDS).

23.2 The Bid Evaluation Committee **shall generate minutes through EPADS v2.0 containing brief details of bid opening process.** The record of the Bid opening shall include, as a minimum: the name of the Bidder, the Bid price if applicable, and the presence or absence of a Bid Security or Bid Securing Declaration.

23.3 The procuring agency shall live broadcast the opening of bids on national media or on their website or digital channels, if the volume of procurement exceeds five hundred million rupees in case of goods and services and one thousand million rupees in case of works.

23.4 In case the date of opening of bid has been declared as public holiday or the procuring agency fail to open bid due to any EPADS v2.0 related issues, the submission and opening of bids shall be shifted to the next working day on the same time.

23.5 In case of Single Stage One Envelope Procedure, the Bidders names, the Bid prices, the total amount of each Bid and, the presence or absence of Bid Security, Bid Securing Declaration and such other details as the Procuring Agency may consider appropriate, will be announced by the Bid Evaluation Committee.

24. Clarification of Bids

24.1 To assist in the examination, evaluation and comparison of Bids of the Bidders, the Procuring Agency may, ask any Bidder for a clarification of its Bid including breakdown of prices.

24.2 The request for clarification and the response shall be sought through EPADS v2.0 **before three days prior to the deadline for submission of bids.** No change in the prices or substance of the Bids shall be sought, offered, or permitted.

24.3 The alteration or modification in the BIDS which in any way affect the following parameters will be considered as a change in the substance of a Bids:

1. evaluation & qualification criteria;
2. required scope of work or specifications;
3. all securities requirements;
4. tax requirements;

5. terms and conditions of Bidding documents.

6. change in the ranking of the Bidder

24.4 From the time of Bids opening to the time of Contract award if any Bidder wishes to contact the Procuring Agency on any matter related to the Bids it should do so through **EPADS v2.0**.

25. Preliminary Examination of Bids

25.1 Prior to the detailed evaluation of Bids, the Procuring Agency will determine whether each Bid:

1. meets the eligibility criteria defined in **ITB 3**;
2. has been prepared as per the format and contents defined by the Procuring Agency in the Bidding documents;
3. is accompanied by the required securities; and
4. is substantially responsive to the requirements of the Bidding documents.

25.2 The Procuring Agency's determination of a Bid's responsiveness will be based on the contents of the Bid itself.

25.3 A substantially responsive Bid is one which conforms to all the terms, conditions, and specifications of the Bidding documents, without material deviation or reservation. A material deviation or reservation is one that: -

1. affects in any substantial way the scope, quality, or performance of the Goods;
2. limits in any substantial way, inconsistent with the Bidding documents, the Procuring Agency's rights or the Bidders obligations under the Contract; or
3. if rectified, would affect unfairly the competitive position of other Bidders presenting substantially responsive Bids.

25.3 If a Bids is not substantially responsive, it will be rejected by the Procuring Agency and may not subsequently be evaluated for complete technical responsiveness.

26. Examination of Terms and Conditions; Technical Evaluation

26.1 The Procuring Agency shall examine the Bids to confirm that all terms and conditions specified in the **GCC** and the **SCC** have been accepted by the Bidder without any material deviation or reservation.

26.2 The Procuring Agency shall evaluate the technical aspects of the Bids submitted, to confirm that all requirements specified in Schedule of Requirements and Technical Specifications of the Bidding documents have been met without material deviation or reservation.

26.3 If after the examination of the terms and conditions and the technical evaluation, the Procuring Agency determines that the Bid is not substantially responsive in accordance with **ITB 25.2**, it shall reject the Bid.

27. Correction of Errors

27.1 Bids determined to be substantially responsive will be checked for any arithmetic errors. Errors will be corrected as follows: -

1. if there is a discrepancy between unit prices and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail, and the total price shall be corrected, unless in the opinion of the Procuring Agency there is an obvious misplacement of the decimal point in the unit price, in which the total price as quoted shall govern and the unit price shall be corrected;
2. if there is an error in a total corresponding to the addition or subtraction of sub-totals, the sub-totals shall prevail and the total shall be corrected; and
3. where there is a discrepancy between the amounts in figures and in words, the amount in words will govern.
4. Where there is discrepancy between grand total of price schedule and amount mentioned on the Form of Bids, the amount referred in Price Schedule shall be treated as correct subject to elimination of other errors.

27.2 The amount stated in the Bid will, be adjusted by the Procuring Agency in accordance with the above procedure for the correction of errors and, with the concurrence of the Bidder, shall be considered as binding upon the Bidder. If the Bidder does not accept the corrected amount, its Bid will then be rejected, and the Bid Security may be forfeited or the Bids Securing Declaration may be executed.

28. Conversion to Single Currency

28.1 To facilitate evaluation and comparison, the Procuring Agency will convert all Bids prices expressed in the amounts in various currencies in which the Bids prices are payable. For the purposes of comparison of bids quoted in different currencies, the price shall be converted into a single currency specified in the bidding documents. The rate of exchange shall be the selling rate prevailing on the date of opening of financial bids specified in the bidding documents, in accordance with weighted average customer exchange rates list issued by the State Bank of Pakistan on that day.

29. Evaluation of Bids

29.1 The Bids, quotations, or proposals shall be evaluated by the respective evaluation committees as per evaluation criteria described in the Bidding Documents in accordance with Rule 29 and 30 of the Public Procurement Rules, 2004.

1. Least Cost Based Selection (LCBS)

After meeting the requirements of eligibility, qualification and substantial responsiveness, the bid in compliance with all the mandatory (technical) specifications/requirements and/or requisite quality threshold (if any), and having lowest evaluated cost (or financial proposal) shall be considered Successful Bid.

2. Quality and Cost Based Selection (QCBS)

In such combination, there shall be some specific weightage of both the technical features and financial aspects of the proposal. The financial marks shall be awarded on the basis of inverse proportion calculations. The successful bid shall be declared, on the basis of combined evaluation.

3. Quality Based Selection (QBS)

After meeting the requirements of eligibility, qualification and substantial responsiveness the bid in compliance with all the mandatory (technical) specifications/requirements and attaining highest marks in the Technical Evaluation considering all other qualitative and/or quantitative parameters (or point rated criteria) for technical proposal(s) such as working methodology, implementation plan, resource allocation, additional functionalities, risk management approach, knowledge transfer techniques, post implementation methodology etc. shall be treated as highest ranked bid. Later on, the financial proposal of highest ranked bidder shall be opened, however, in case of failure to proceed further with such a bidder, the procuring agency may resort to second

highest bidder and so on.

29.2 In case of tie of bids, the bidders shall be provided an opportunity to offer their best and final monetary offer through EPADS v2.0. However, in no case the rates shall be higher than the original financial bids.

30. Domestic Preference

30.1 The procuring agency shall evaluate and compare bids, allow for preference to domestic bidders, while competing with the international bidders in accordance with the policies of Federal Government.

The percentage of preference, to be accorded shall be clearly mentioned in the bidding documents under the bid evaluation criteria.

31. Determination of Successful Bid

31.1 Selection technique will be adopted for determining the Successful Bid in accordance with the criteria referred in the BDS or prescribed in the separate section titled as Evaluation Criteria.

31.2 In case where the Procuring Agency adopts the Cost Based Evaluation Technique and, the Bid with the lowest evaluated price from amongst those which are eligible, compliant and substantially responsive shall be the Successful Bid.

31.3 The Procuring Agency may adopt the Quality & Cost Based Selection Technique due to the following two reasons:

1. Where the Procuring Agency knows about the main features, usage and output of the products; however not clear about the complete features, technical specifications and functionalities of the goods to be procured and requires the bidders to submit their proposals defining those features, specifications and functionalities; or

2. Where the Procuring Agency, in addition to the mandatory requirements and mandatory technical specifications, requires parameters specified in Evaluation Criteria to be evaluated while determining the quality of the goods.

31.4 In such cases, the Procuring Agency may allocate certain weightage to these factors as a part of Evaluation Criteria, and may determine the ranking of the bidders on the basis of combined evaluation in accordance with provisions of Rule 2(1)(h) of the Public Procurement Rules, 2004.

32. Abnormally Low Financial Bids

32.1 Where the Bid price is considered to be abnormally low, the Procuring Agency shall perform price analysis either during determination of Successful Bids or as a part of the post-qualification process.

32.2 The Procuring Agency may reject an Abnormally low financial bids.

32.3 In order to identify the Abnormally Low Bids (ALB) following approaches can be considered to minimize the scope of subjectivity:

1. Comparing the Bids price with the cost estimate;
2. Comparing the Bids price with the Bids offered by other Bidders submitting substantially responsive Bids; and
3. Comparing the Bids price with prices paid in similar contracts in the recent past either government- or development partner-funded.

32.4 The Procuring Agency will determine to its satisfaction whether the Bidder that is selected as having submitted the successful bid is qualified to perform the contract satisfactorily.

32.5 The determination will take into account the Bidder's financial, technical, and production capabilities. It will be based upon an examination of the documentary evidence of the Bidder's qualifications submitted by the Bidder, as well as such other information as the Procuring Agency deems necessary and appropriate. Factors not included in these Bidding documents shall not be used in the evaluation of the Bidders' qualifications.

32.6 Procuring Agency may seek "Certificate for Independent Price Determination" from the Bidder and the results of reference checks may be used in determining an award of contract.

Explanation: The Certificate shall be furnished by the Bidder. The Bidder shall certify that the price is determined keeping in view of all the essential aspects such as raw material, its processing, value addition, optimization of resources due to economy of scale, transportation, insurance and margin of profit etc.

32.7 An affirmative determination will be a prerequisite for award of the contract to the Bidder. A negative determination will result in rejection of the Bidder's Bids, in which event the Procuring Agency will proceed to the next ranked Bidder to make a similar determination of that Bidder's capabilities to

perform satisfactorily.

F. Award of Contract

33. Criteria of Award

33.1 The Procuring Agency will award the Contract to the Bidder whose Bids has been determined to be substantially responsive to the Bidding documents and who has been declared as Most Advantageous Bidder.

34. Negotiations

34.1 The procuring agency shall not engage in negotiations with respect to scope and price with the bidder except when the procuring agency conducts a procurement using direct **or negotiated** contracting or a request for proposals with evaluation based on quality alone.

34.2 The procuring agency may negotiate with the most advantageous bid with a view to streamline the work or task execution, at the time of contract finalization on methodology, work plan, staffing, finalizing payment arrangements, delivery arrangements, minor amendments to the special conditions of the contract.

35. Procuring Agency Right to reject all bids

35.1 The Procuring Agency reserves the right to reject all bids or proposals at any time prior to the issuance of the Letter of Award, without incurring any liability, in accordance with Rule 33 of the Public Procurement Rules, 2004.

36. Procuring Agency's Right to Vary Quantities at the Time of Award

36.1 The Procuring Agency reserves the right at the time of contract award to increase or decrease the **quantity of** Goods originally specified in these Bidding documents provided this does not exceed **by** 15%, without any change in unit price or other terms and conditions of the Bids and Bidding documents.

37. Notification of Award

37.1 Prior to the award of contract, the procuring agency shall announce and publish the result of bid evaluation on **EPADS v2.0** in accordance with Rule 35

of the Public Procurement Rules, 2004.

37.2 The Bidder whose Bids has been accepted will be notified of the award by the Procuring Agency prior to expiration of the Bids/Bid Validity period. The Letter of Award will state the sum that the Procuring Agency will pay the successful Bidder in consideration for the delivery of Goods as prescribed by the Contract (hereinafter and in the Contract called the "Contract Price).

37.3 The Letter of award will constitute the formation of the Contract, subject to the Bidder furnishing the Performance Guarantee and signing of the contract.

38. Signing of Contract

38.1 Promptly after issuance of Letter of award, Procuring Agency shall send the successful Bidder the draft Contract, incorporating all terms and conditions as agreed by the parties to the contract.

38.2 Immediately after the Redressal of grievance by the GRC (if any), mandatory standstill period in accordance with Rule 35 of the Public Procurement Rules, 2004 and **after fulfillment of all condition's precedent** of the Contract Form, the successful Bidder and the Procuring Agency shall sign the Contract.

39. Corrupt & Fraudulent Practices

39.1 Procuring Agencies (including beneficiaries of Government funded projects and procurement) as well as Bidders/Contractors under Government financed contracts, observe the highest standard of ethics during the procurement and execution of such contracts, and will avoid to engage in any corrupt and fraudulent practices.

F. Grievance Redressal & Complaint Review Mechanism

40. Constitution of Grievance Redressal

40.1 The Grievance Redressal Committee shall address the grievance, if any submitted by any party, including the bidder, in accordance with Rule 48 of the Public Procurement Rules, 2004 to be read with Redressal of Grievances Regulations, 2021.

40.2 In case if any party or the bidder is not satisfied with the decision of the GRC or if it fails to decide within ten days, the bidder or the party may file an appeal before the Appellate Committee of the Authority in accordance with Rule 48 of the Public Procurement Rules, 2004 to be read with Redressal of Grievances Regulations, 2021.

G. Mechanism of Blacklisting

41. Mechanism of Blacklisting

41.1 The Procuring Agency shall initiate blacklisting proceedings against any bidder, supplier, or contractor in accordance with the Mechanism for Blacklisting Regulations, 2024, read with Rule 19 of the Public Procurement Rules, 2004.

41.2 The blacklisted/debarred bidder may file the review petition before the Authority in accordance with Rule 19 of the Public Procurement Rules, 2004 to be read with Procedure of filing and disposal of Review Petitions Regulations, 2021.

Bid Data Sheet

Bids Data Sheet (BDS)

The following specific data for the procurement of Goods to be procured shall complement, supplement, or amend the provisions in the Instructions to Bidders (ITB). Whenever there is a conflict, the provisions herein shall prevail over those in ITB.

BDS Clause Number

ITB Number

Amendments of, and Supplements to, Clauses in the Instruction to Bidders

A. Introduction

BDS Clause Number 1

ITB Number 1.1

Name of Procuring Agency: **Ministry of Foreign Affairs (Ministry of Foreign Affairs)**

The subject of procurement is: **Subscription of endpoint security (XDR) & clientless VPN Licenses**

Expected commencement date: **Monday, August 10, 2026**

BDS Clause Number 2

ITB Number 2.1

Financial year for the operations of the Procuring Agency: **2026-27**

Name and identification number of the Contract: **P54539**

BDS Clause Number 3

ITB Clause Number 3.1

JV/Consortium or Association Allowed: **No**

Number of JV/Consortium Members: **Nil**

see section of eligibility criteria.

B. Bidding Documents

BDS Clause Number 4

ITB Number 8.1

The Bidders may seek clarifications through **EPADS v2.0** : Clarification Date:
Monday, July 20, 2026

C. Preparation of Bids

BDS Clause Number 5

ITB Number 10.1

The Language of all correspondences and documents related to the Bids shall be in: **English**

List of documents required along with the bid:

1. Date sheet of the XDR solution.
2. Data sheet of client less VPN

BDS Clause Number 6

ITB Number 11.1

Items/Lots and threere related documents:

See section items and Lots

BDS Clause Number 7

ITB Number 12.1

Items / Lots Specifications:

see section of items specifications.

BDS Clause Number 8

ITB Number 15.6

The price shall be **Fixed**.

BDS Clause Number 9

ITB Number 16.1

Currency of the Bids shall be : **PKR**

BDS Clause Number 10

ITB Number 17.1

The Bids/Bid Validity period shall be: **90 Days**

BDS Clause Number 11

ITB Number 18.1

The amount of Bid Security shall be as defined in Bid Security Section for items and lots given in **BDS 6**

The Bid Security shall be in the form of: **Pay Order, Call at Deposit, Bank Guarantee**

D. Submission of Bids

BDS Clause Number 12

ITB Number 20.1

Bid shall be submitted online on EPADS v2.0 whereas hard copy of the bid security should be submitted to the following;

Constitution Avenue, Sector G-5., Islamabad Capital Territory before bid submission deadline.

Bids that are not submitted on EPADS v2.0 shall be disqualified.

The deadline for Bids submission is: **Monday, July 27, 2026 12:00 PM**

E. Opening and Evaluation of Bids

BDS Clause Number 13

ITB Number 23.1

The Bids opening shall take place on **EPADS v2.0**.

Day : **Monday**

Date: **Monday, July 27, 2026**

Time : **12:30 PM**

BDS Clause Number 14

ITB Number 31.1

Selection technique adopted will be: **Least Cost Based Selection (LCBS)**
see Evaluation Criteria

F. Review of Procurement Decisions

BDS Clause Number 15

ITB Number 41.1

Grievance against this procurement shall be submitted online on EPADS v2.0.

Arbitrator shall be appointed by mutual consent of the both parties.

Eligibility Criteria

Bidder's Type	Required Registration
Individual / Individual Consultant	NADRA CITIZENSHIP (CNIC/NICOP)
Sole Proprietorship	FBR (NTN)

Specifications / Requirements:

Required features of XDR Solution to be deployed		
Must have features		Compliance
1	The XDR solution must natively embed a full-featured enterprise-grade automation and response engine capable of executing complex multi-vendor remediation playbooks directly within the core console, strictly avoiding platforms whose automation is limited to endpoint-centric workflows or requires a separately licensed orchestration module.	
2	The XDR solution must provide a visual drag-and-drop playbook builder natively within the console, strictly avoiding architectures that require code-first, terminal-based, or API-only playbook authoring.	
3	The XDR solution must provide more than one hundred out-of-the-box cross-domain incident response playbooks natively within the console, strictly avoiding architectures that require a separately licensed automation product.	
4	The XDR solution must offer a single unified on-premises gateway appliance capable of simultaneously acting as a log proxy, content cache, and distribution point for all XDR components, strictly avoiding architectures that require multiple disjointed collector tools for different data sources.	

Required features of XDR Solution to be deployed

5	The XDR solution must provide a native Model Context Protocol (MCP) server allowing customers to author custom MCP tools and enabling AI agents to consume third-party tools and data via a standardized open protocol, strictly avoiding closed AI ecosystems that limit agent extensibility to vendor-published capabilities.	
6	The XDR solution must provide a specialist agentic AI platform with distinct out-of-the-box agents dedicated to threat intelligence, email investigation, endpoint investigation, network security, IT operations, and automation engineering, strictly avoiding architectures that provide only a single generic generative AI chat assistant.	
7	The XDR solution must provide a centralized agent management hub allowing administrators to build custom AI agents via a no-code natural-language builder and assign them scoped actions (playbooks, scripts, AI prompts, MCP-integrated tools) with configurable human-in-the-loop approval enforcement, strictly avoiding platforms whose agent framework is vendor-controlled with no customer extensibility.	
8	The XDR solution must provide native single-click bulk UI actions (file retrieval, malware scan, endpoint isolation, script execution, memory collection) across thousands of selected endpoints or servers simultaneously from the management console, strictly avoiding architectures that require scripting API loops or command-line iteration to execute bulk response.	
9	The XDR solution must natively support bulk agent uninstallation and bulk agent version upgrades directly from the management UI, strictly avoiding architectures that require third-party endpoint-management tools or external scripts for these operations.	
10	The XDR solution must provide dedicated memory-corruption and exploit-mitigation protection modules natively across Linux, Windows, and macOS endpoints, strictly avoiding architectures that rely solely on machine learning or behavioral heuristics for exploit prevention.	

Required features of XDR Solution to be deployed

11	The XDR solution must utilize an agent architecture that natively supports peer-to-peer distribution of content updates and agent upgrades, strictly avoiding architectures that require a dedicated local update server or proxy infrastructure to minimize WAN consumption.	
12	The XDR solution must allow administrators to explicitly customize, weight, and override the automated incident severity scoring based on custom environmental variables (asset criticality, role, business context), strictly avoiding scoring architectures that are opaque or non-configurable by the customer.	
13	The XDR solution must manage all XDR components (endpoint, identity, network detection and response) entirely within a single unified web console, strictly avoiding architectures that force analysts to pivot between an XDR console and a separate SIEM, log management, or next-gen SIEM interface.	
14	The XDR solution must provide an on-premises execution engine (supporting Docker and Podman runtimes) that runs automation integrations, scripts, and actions against internal network resources, strictly avoiding architectures that require inbound firewall port opening or separate orchestration appliances.	
15	The XDR solution must include a built-in commercial malware sandbox that natively detonates files captured from both endpoint agents and integrated network firewalls, strictly avoiding architectures that require a separately purchased sandbox product or that rely exclusively on endpoint-side dynamic analysis.	
16	The XDR solution must support endpoint agent deployment on Windows, macOS, Linux, and ChromeOS platforms with a unified management policy framework.	
17	The XDR solution must provide kernel-mode and user-mode protection on Linux endpoints using both eBPF and kernel module implementations to ensure compatibility across distributions.	

Required features of XDR Solution to be deployed

18	The XDR solution must support agent operation on VDI environments including non-persistent desktop infrastructure.	
19	The XDR solution must support agent installation via MSI, PKG, RPM, and DEB packages with silent deployment parameters.	
20	The XDR solution must support SSO authentication via SAML 2.0 with identity providers including Okta and Azure AD.	
21	The XDR solution must provide granular role-based access control with scope-based access control restricting users to specific asset groups, data sources, or tenants.	
22	The XDR solution must support user group management with role inheritance and group-based permission assignment.	
23	The XDR solution must support native multi-tenant deployment covering both MSSP and enterprise parent/child tenant models.	
24	The XDR solution must support dynamic license allocation across child tenants with central licensing management.	
25	The XDR solution must support parent-child tenant content and configuration distribution including playbook, detection rule, and dashboard sharing.	
26	The XDR solution must provide Causality Chain analysis linking process, network, file, and registry activity across time into a single graph.	
27	The XDR solution must provide cross-host attack storyline visualization spanning endpoint, network, SaaS, and identity surfaces.	

Required features of XDR Solution to be deployed

28	The XDR solution must provide a dedicated SaaS Causality view for investigations originating in SaaS audit logs.	
29	The XDR solution must provide a dedicated Network Causality view for investigations originating in network telemetry.	
30	The XDR solution must support IOC rules for file hash, IP address, domain, and URL indicators with configurable severity and action.	
31	The XDR solution must support custom behavioral rules with customizable logic across process, file, network, registry, and authentication telemetry.	
32	The XDR solution must support correlation rules with configurable suppression windows and field-replacement syntax.	
33	The XDR solution must support scheduled correlation rules with defined time windows and server-side error troubleshooting.	
34	The XDR solution must support rule testing and preview prior to production deployment.	
35	The XDR solution must support rule import and export for content lifecycle management across environments.	
36	The XDR solution must provide MITRE ATT&CK framework coverage mapping with a dedicated tactics and techniques coverage dashboard.	
37	The XDR solution must support custom dashboards with drag-and-drop widgets, filters, and drilldowns.	
38	The XDR solution must support scheduled report generation in PDF and HTML formats with email distribution.	

Required features of XDR Solution to be deployed

39	The XDR solution must provide pre-built report templates for executive, operational, and compliance audiences.	
40	The XDR solution must provide AI-generated case summaries consolidating telemetry, impact, and context into a high-level report for triage and stakeholder communication.	
41	The XDR solution must support automatic case grouping based on shared indicators, behavioral similarity, and temporal proximity.	
42	The XDR solution must support case starring, watchlists, and featured field designation for analyst workflow prioritization.	
43	The XDR solution must support case resolution reasons, collaborative notes, and comment threads per case.	
44	The XDR solution must provide a collaborative virtual war room interface for real-time investigation with shared context.	
45	The XDR solution must provide a Work Plan interface for structured incident task management and progress tracking.	
46	The XDR solution must support issue exclusions, profile exceptions, and allow lists with scope-based applicability.	
47	The XDR solution must provide endpoint isolation (network quarantine) with configurable exclusions for management traffic.	
48	The XDR solution must support temporary pause and resume of endpoint protection with audit logging.	
49	The XDR solution must provide automatic and manual file quarantine with release and restore capability.	

Required features of XDR Solution to be deployed

50	The XDR solution must support file hash exception lists with bulk import from CSV.	
51	The XDR solution must support automatic file submission to an integrated commercial sandbox for unknown executable, macro, DLL, and script samples.	
52	The XDR solution must support third-party hash reputation lookup against external intelligence sources before executing destructive response actions.	
53	The XDR solution must support external dynamic lists (EDLs) for IP addresses and domains associated with detected threats.	
54	The XDR solution must provide host firewall management with centrally-managed rules per endpoint group.	
55	The XDR solution must provide device control for USB, CD-ROM, and external storage with granular per-class policies.	
56	The XDR solution must provide disk encryption visibility for BitLocker and FileVault, reporting encryption status and recovery-key presence.	
57	The XDR solution must provide a script prevention engine capable of inspecting PowerShell, VBScript, JavaScript, and macro execution.	
58	The XDR solution must provide anti-ransomware protection using behavioral detection and decoy file techniques.	
59	The XDR solution must provide agent tamper protection including an administrator-configurable uninstall password.	
60	The XDR solution must support outbound log and notification forwarding to syslog, Amazon S3, Amazon SQS, webhooks, Slack, email, and third-party SIEMs.	

Required features of XDR Solution to be deployed

61	The XDR solution must provide API key management with granular scope, expiration, and rotation controls.	
62	The XDR solution must maintain management audit logs for all administrative actions including rule edits, policy changes, and user access events.	
63	The XDR solution must allow administrators to define issue thresholds per case grouping policy to control case creation volume.	
64	The XDR solution must provide analytics sensor configuration per tenant, allowing customers to enable or disable individual analytics sensors based on licensing and data sources.	
65	The XDR solution must support a natural-language assistant able to generate and execute query language statements on the analyst's behalf.	
66	The XDR solution must provide AI-prompt role-based access control governing which users may author, edit, or execute prompts.	
67	The XDR solution must support a dedicated dashboard showing AI agent plans, user prompts, and associated cases.	
68	The XDR solution must include an autonomous Agentic AI "brain" that plans, reasons, and investigates complex threats using AI agents with access to full case context, capable of executing commands, playbooks, and scripts via natural language prompts.	
69	The XDR solution must provide an ecosystem-based Agentic architecture consisting of Agents (virtual personas with RBAC-bound roles), Actions (wrappers for playbooks, scripts, commands, AI prompts), Plans (parallel or sequential action sequences), Conversations (multi-turn contextual interactions), and Requests (user-goal triggers), strictly avoiding single-layer chatbot architectures.	

Required features of XDR Solution to be deployed

70	The XDR solution must include a centralized agent management hub providing unified management of agents and actions, with the ability to enable, disable, build, edit, duplicate, and delete agents and actions from a single interface.	
71	The XDR solution must include more than fifty out-of-the-box system actions and pre-built system agents covering case investigation, threat intel, email investigation, endpoint investigation, network security, IT operations, automation engineering, exposure management, and help-center documentation retrieval.	
72	The XDR solution must support customer-built custom AI agents with configurable agent name, description, color, specific instructions (role, instructions, output structure), public/private visibility, and up to four configurable conversation starters.	
73	The XDR solution must support registration of customer-authored scripts, integration commands, and AI prompts as custom actions, with configurable name, goal description, few-shot examples, per-action input/output selection, and per-action default values.	
74	The XDR solution must enforce automatic inheritance of the invoking user's RBAC and SBAC permissions onto all agent action executions, strictly avoiding architectures where agents operate with privileges exceeding the user's own permissions.	
75	The XDR solution must support explicit marking of any action as "sensitive" to require mandatory human-in-the-loop approval prior to execution, with the ability for administrators to toggle sensitivity on system actions per organizational policy.	
76	The XDR solution must provide a full audit dataset logging every agent plan, every executed action, the invoking user, the agent used, and the action outcome, for traceability and compliance.	

Required features of XDR Solution to be deployed

77	The XDR solution must provide full agent-plan transparency with the ability to expand and view the planned steps, executed actions, JSON artifacts produced, and the interpretation of the original user prompt.	
78	The XDR solution must provide a native Model Context Protocol (MCP) integration framework supporting connection to third-party MCP servers via stream able HTTP with both OAuth-based and authless authentication.	
79	The XDR solution must automatically discover tools exposed by connected third-party MCP servers on an hourly cadence (and on integration-instance save) and automatically register them as AI-consumable actions of type "MCP Tool."	
80	The XDR solution must include pre-built MCP content packs plus a Generic MCP connector for arbitrary third-party MCP servers, with multiple integration instances per MCP content pack.	
81	The XDR solution must support granular integration-permission controls restricting which roles may execute MCP-tool actions, with default "sensitive" marking on all auto-registered MCP tools until the administrator explicitly relaxes this.	
82	The XDR solution must include a downloadable platform-side MCP server (Docker or Python virtual environment deployment) that exposes the XDR platform's capabilities (cases, issues, assets, endpoints, compliance results, native query language statements) to any standards-compliant external MCP client via natural language.	
83	The XDR solution must allow customers to author their own MCP server tools using Open API specifications or Python modules, automatically collected by the MCP server at runtime for use against the platform's REST APIs.	

Required features of XDR Solution to be deployed

84	The XDR solution must include a dedicated Case Investigation agent embedded directly within the case card, providing dynamic log-data summarization, executive and technical overviews, focused contextual inquiries (issue deep-dives, asset relationships, artifact investigation), and an "Ask AI" entity-specific prompt pivot next to IP addresses, file hashes, and other entities.	
85	The XDR solution must include a dedicated Agentic Assistant dashboard showing pre-configured triggers, user-prompt activity, top automation rules, the five most-engaged agents over a rolling seven-day window, and an "Other Agents" drilldown to the agent management hub.	
86	The XDR solution must include a built-in Help Center Agent providing natural-language access to official product documentation, answering configuration and operational questions by retrieving concise, relevant information from the vendor's documentation site.	
87	The XDR solution must provide multi-chat session management allowing the analyst to run multiple concurrent Agentic conversations, switch between agents per chat, retain chat history organized by time period (today, yesterday, last seven days, older), and rename or delete past chats.	
88	The XDR solution must include intelligent prompt-intent clarification and automatic blocking of requests that appear exploitative or harmful to the platform or the organization's environment.	
89	The XDR solution must include a full native SOAR engine capable of creating, customizing, and running unlimited playbooks directly within the XDR console, with no separately licensed SOAR product required.	
90	The XDR solution must include a Playbook Catalog with searchable, preview-capable, one-click "Adopt" out-of-the-box playbooks drawn from the unified content marketplace, plus an organizational playbook repository view tracking adoption, enablement, automation-rule usage, and sub-playbook usage.	

Required features of XDR Solution to be deployed

91	The XDR solution must include a Task Library inside the playbook editor supporting pre-packaged rapid actions, Commands & Scripts, Sub-Playbooks, AI Prompt tasks, Manual Tasks (standard, conditional, data collection), Section Headers, and Blank Tasks.	
92	The XDR solution must support five distinct playbook task types, Standard (automated or manual), Conditional (decision-tree branching), Data Collection (user-survey input with multi-user response recording), AI Prompt (LLM invocation), and Section Header (collapsible grouping), with distinct visual icons for each type and origin.	
93	The XDR solution must support AI Prompt tasks embedded as first-class playbook tasks with configurable prompt text, variable inputs referenced via <code>\${input}</code> syntax, configurable temperature (0 to 2), configurable max-output tokens (default 2,500), and configurable indicator-extraction mode (none, inline, out-of-band).	
94	The XDR solution must include a Local AI Prompt mechanism that freezes a prompt's behavior inside a specific playbook against future library updates, preserving tested behavior even as the central Prompts Library evolves.	
95	The XDR solution must include a built-in Prompt Helper offering prompt-engineering guidance (clarity, specificity, role assignment, audience framing, output-format specification, few-shot prompting), plus a one-click "Optimize" function that refines prompt text against predefined system guidelines with an undo option.	
96	The XDR solution must include more than one hundred pre-built system AI prompt tasks covering use cases such as vulnerability-report summarization, phishing-email analysis, malware-behavior narratives, MITRE ATT&CK mapping, and IOC extraction.	

Required features of XDR Solution to be deployed

97	The XDR solution must support native sub-playbook invocation with configurable input/output scope (shared globally or private to the sub-playbook), and configurable sub-playbook loops for repetitive processing of arrays of entities.	
98	The XDR solution must include a native filter-and-transformer framework enabling analysts to extract, filter, format, and reshape context data within playbook tasks through a no-code UI, with the ability to author custom filter and transformer operators via tagged scripts.	
99	The XDR solution must support per-task error-handling semantics, Stop (halt on error), Continue (ignore error), and Continue-on-Error-Path (branch to an error-handling path),with configurable retry count and retry interval (default 30 seconds, maximum 800 seconds) per task.	
100	The XDR solution must include a full interactive playbook debugger supporting breakpoints, conditional breakpoints, task skipping, live input/output overrides (plain text, arrays, JSON), real-time context-data inspection, indicator-extraction inspection, and use of mock issues or existing issues as test data without modifying production issue state.	
101	The XDR solution must include native automation-rule authoring with a WHEN/IF/THEN construct, where WHEN is the trigger type (issue creation, case, audit log), IF is an arbitrary filter over issue fields, and THEN is an automated action chain invoking a rapid action, a playbook, or an agent, evaluated in strict priority order with only the first matching rule executing.	
102	The XDR solution must support automation rules that automatically trigger specialist AI agents with pre-written prompts on issue creation, with a built-in "Test Prompt" capability that runs a full plan-execution test against either a mock issue or a selected production issue before the rule is committed.	

Required features of XDR Solution to be deployed		
103	The XDR solution must include an AI-powered Automation Engineer agent providing a conversational natural-language interface for script development, supporting initial full-script generation from a simple prompt, existing-script modification, iterative bug fixing, deprecated-API detection and replacement, logic simplification, script explanation, input validation, error-handling augmentation, and SDK/command syntax guidance.	
104	The XDR solution must support customer-deployed on-premises execution engines (Docker and Podman runtimes) that run integrations and scripts against internal-network resources, with native support for web proxy configuration, custom CA certificates, load-balancing groups across multiple engines, and per-script Docker image selection against customer-operated private image registries.	
105	The XDR solution must provide a collaborative incident workspace interface supporting ad-hoc execution of integration commands and scripts via a command-line interface during live investigations, plus native context-data management (issue, case, search), List management for cross-playbook persistent state, Data Collection tasks for multi-user surveys, and Communication tasks with email templating and reply handling all without requiring pivoting to an external SOAR console.	
106	The proposed XDR solution must be compatible with the existing IT& Network equipment.	
Required features of Clientless VPN Solution to be deployed		
1	The proposed License must offer a remote user VPN agent for Windows, MAC, Linux, Chrome, iOS, and Android devices and support at least 1000 VPN Users	
2	The proposed License must support portal based and clientless SSL VPN	
3	The proposed License must support MFA	
4	The proposed License must offer a host information check feature by collecting & reporting device information & attributes.
